# COLD WAVE HERE BRINGS TROUBLE AND DAMAGE

## 100 May Be Put On Trial Following Inquiry In Ontario

### TESTS PLANNED ON RESTRAINT OF TRADE ISSUE

Federal Department of Justice, According to Report, Has Decided to Proceed Under Combines Investigation Act Against Large Group on Basis of Evidence Taken at Waldron Commission's Inquiry Into Building Trade Activities in Ontario.

### THREE GROUPS OF VOTERS TO GO TO POLLS

Saanich, Esquimalt and Oak Bay Voters to Express Views

Saanich Elects Reeve and Council; Oak Bay and Esquimalt Name Trustees

Polling will take place to-morrow in the three municipalities adjoining Victoria. Interest is keen in the balloting in Saanich, where a contest for the reevehip is taking place between Reeve William Crouch, seeking a fourth term, and Frank V. Hobbs, for eight years a member of the Saanich School Board.

Two by-laws, to provide nearly \$120,000 for school buildings, will be before the ratepayers, who elected the new school board by acclamation on Monday.

There will be elections for councillor in three wards, the candidates being: Ward Two, Dennis Hoare and F. J. Crowhurst; Ward Three, Councillor G. F. Watson, and Councillor William Stubbs; Ward Four, C. H. Williams, W. R. Woods and W. J. Lynn.

For the police commission the voters will ballot on Commissioner Charles E. King and Frederick Cawsey.

The polling places will be open from 8 o'clock in the morning until the same hour in the evening. R. R. F. Sewell is returning officer. The polls will be held as follows:

Ward One, at Cedar Hill School, Cedar Hill Crossroad; Ward Two, at Tolmie School, Bealton Road; Ward Three, at Gordon Head School, Tyndall Avenue; Ward Four, at Women's Institute Hall, Marigold Road and Jasmine Avenue; Ward Five, at Royal Oak School, junction of East and West Saanich Roads; Ward Six, at Temperance Hall, East Saanich Road; Ward Seven, at Tillamook School, Albina and Orilla Streets, near Burnside Road.

**ESQUIMALT POLLS**  
Voters of Esquimalt will poll at the Municipal Hall and at the corner of Craigflower Road and Arm Street. Only those included in the first section of the voters' list will be polled at the Municipal Hall.

School trustees and one police commissioner will be chosen by the voters, who will also vote on a by-law authorizing a fixed assessment of the land and improvements of the Gorge Vale Golf Club.

**OAK BAY ELECTIONS**

In Oak Bay the voters will ballot for school trustees and will vote on proposals that an exclusive franchise to operate buses be given the Royal Oak Line. The balloting will take place at the Municipal Hall.

### Prince Rupert Continues B.C. Police System

Prince Rupert, Jan. 17.—The civic referendum here yesterday on the question of retaining the Provincial Police went in favor of retaining the police by a majority of 117.

### CANADIAN MANUFACTURERS ARE TO TOUR WEST INDIES

Calgary, Jan. 17.—R. J. Hutchings, president of the Canadian Manufacturers' Association, who left here last night for eastern Canada, to-day is on his way to head a party of members of the Canadian Manufacturers' Association who will make a tour of the West Indies in the interests of Canadian industry and trade.

The object of the trip, Mr. Hutchings stated, was to permit the members of the Canadian Manufacturers' Association to familiarize themselves with the class of goods required in the West Indies and which could be manufactured in Canada, and also to study conditions in that portion of the Empire.

The party will sail aboard the liner Lady Drake from Halifax January 24. It is planned to visit practically every important centre in the West Indies and British Guiana.

### Water Shortage Is Menace To Everett, Wash.

Everett, Wash., Jan. 17.—The most serious water shortage in Everett's history to-day caused by a break somewhere in the city's supply line, resulted in the closing of all the big mills here and an urgent appeal by Mayor N. D. Martin that water be conserved to the utmost.

Only enough water was on hand to supply the city until to-morrow and the location of the stoppage was still a mystery. Ice in pipe lines was believed to have caused the break as water was entering the intakes at the head works but not arriving in the reservoirs.

### U.S. Delegates To Naval Reduction Conference Are Greeted In London

London, Jan. 17.—The United States delegation to the Five-Power Naval Conference, to be opened here next Thursday, arrived in London from Plymouth at 2.15 o'clock this afternoon.

The party, which included Ambassador Dawson, who had gone on to Plymouth to greet the liner George Washington, early this morning, was welcomed at the station by a group of prominent officials, including Foreign Secretary Henderson, Right Hon. A. V. Alexander, First Lord of the Admiralty, and Sir Robert Vansittart.

Premier MacDonald was represented by his son, Malcolm MacDonald, Albert Haldane, United States ambassador in London, also was present to greet the delegation from across the Atlantic.

Soon after the United States delegation's arrival, Secretary of State Stimson, its chairman, went into conference with Premier MacDonald. The discussion lasted three hours, Mr. Stimson leaving No. 10 Downing Street at 6 p.m.

**Police Chief Would Extend Causeway Wall**  
Extension of the Causeway wall from Government Street along Belleville Street to Menzies Street, filling in of the present sloping lawn at that point and the construction of a roadway there, leaving a safety island in the centre, was recommended to the Board of Police Commission by Chief of Police John Fry yesterday.

The Chief pointed out that a development of this nature would greatly facilitate traffic difficulties at the C.P.R. crossing. He suggested the council be asked to have the work done.

Mayor Anson viewed the project as one which would mar the beauty to some extent of that part of the city. The cost was also to be reckoned with, he said. The recommendation was ordered received and filed.

Several other recommendations dealing with traffic matters were before the board at its initial meeting of the year yesterday.

A request from the Victoria West Brotherhood that a two-faced warning sign to motorists be erected on Front Street near Wilson Street, was referred to the Chief.

**THINK OF OWN INTERESTS OAK BAY ADVISED**  
A. T. Goward of B.C.E.R. Makes Statement on To-morrow's Referendum

A. T. Goward, vice-president of the B.C. Electric Railway Company, issued the following statement this morning in regard to the referendum which will be voted on in the Oak Bay municipal elections to-morrow:

"To-morrow you are asked to vote on the question of authorizing the council to give a franchise to the Blue Line Bus Company to operate motor buses in the municipality do the expense of any other company. We wish to draw attention to the far-reaching effect of such a franchise and to point out that it is not necessary that it is not in the best interest of the citizens, and that it may very seriously prejudice the existing transportation system."

"The B.C. Electric has been giving a street railway service to the municipality for nearly forty years. We have a large investment in the railway track, street cars and equipment. We have in addition a large investment in light and power equipment, and we are negotiating with the council in regard to extending our gas service into the municipality."

"We pay the highest wages in Canada to our street car men, many of whom have lived with you for years. Our purchases from the merchants in Victoria run into the hundreds of thousands of dollars annually, and our street car fares are among the lowest on the continent."

"We have been charged with being dilatory in establishing this bus service. We freely admit this, and believe we made a mistake. All companies, (Concluded on Page 19)

### Coppermine Region Open To Prospectors

Ottawa, Jan. 17.—The order which created the Coppermine reserve for the investigation of reports of rich deposits of native copper will be withdrawn July 1, 1930, the Department of the Interior announced to-day.

The reserve was created in 1918 and considerable investigation has been carried out. The investigations have shown scattered fragments of native copper are to be found and that considerable deposits of low grade ores exist.

The department decided these resources were best explored by private enterprises and decided to remove the reservation imposed on the district, lying north of latitude 66 and between longitudes 106 and 116.

**Will Speak For France At London Naval Conference**  
Toronto, Jan. 17.—Harry Lyons, son of Hon. James Lyons, representing a group holding control of the Nickel Hill syndicate stock, stated to-day that unless brokerage firms should deliver 221 units of Nickel Hill syndicate stock to purchasers by this afternoon, writs would be served involving \$2,000,000.

At least six brokerage houses were said to be involved, and possibly more would be named, it was stated.

It was a matter of conjecture as to what course would be followed.

Mr. Lyons said there had been several offers made by individuals and for individuals for portions of the 221 units which were not delivered. Some of the offers were as high as \$7,000 a unit, he said.

**TO BE STRAIGHTENED OUT**  
Ottawa, Jan. 17.—Remedial action is to be put through by a number of Ottawa brokers, according to Colonel W. W. Denison, provincial registrar of brokers, and Norman Harris of the Ontario Attorney-General's Department, who concluded their two-day inquiry into non-member brokerage houses here at noon to-day. Asked for an explanation of what they termed remedial action, in a statement to the press Colonel Denison said he meant "straightening out with certain clients, and changing the set-up of certain unfair promotion schemes by certain brokers."

**COLD WAVE IN PRAIRIE AREA IS BREAKING**  
Mercury Starts Upward After Period of Biting Weather

Winnipeg, Jan. 17.—The prairie region's second chilly spell within ten days seemed to-day to be on the wane. Forty-below zero temperatures, general in the three provinces yesterday, had disappeared to-day and mercury readings were on the upgrade. Minnesota, in central Manitoba, was the coldest prairie point at 32 degrees below zero.

Winnipeg registered 20 below zero and The Pas, to the north, 24 below zero.

Moose Jaw and Regina, in Saskatchewan, reported 20 below, while Lethbridge and Medicine Hat, in Alberta, showed 24. The weather was comparatively mild at Edmonton, thermometers reading 10 below zero.

Mild weather was forecast with local snow flurries.

**WOMAN GOES THROUGH CHINA'S RED TERROR**  
To have gone through China's Red Reign of Terror has been the experience of Alice Tisdale Hobart.

She has written the full story of her adventures amid flood, famine, pestilence and war, where 400,000,000 people live in constant fear.

Her vivid story will be published exclusively in this city to-morrow by The Victoria Times as one of the features of the Saturday Magazine Section.

Other features of to-morrow's week-end magazine section will be:

Radio knife is medical science's newest ally in war on disease.

Robert Connell tells the story of Epping Forest.

Modernistic rooms, grown less bizarre, become more livable.

Departure Bay, near Nanaimo, an island beauty spot, has an historic past.

A page on the new books of the day and comment.

An illustrated page on latest fashions for women.

A page of week-end cables from across the Atlantic.

The regular weekly illustrated page for the children.

And the four-page colored comic section.

### WILL SPEAK FOR FRANCE AT LONDON NAVAL CONFERENCE

Ottawa, Jan. 17.—The order which created the Coppermine reserve for the investigation of reports of rich deposits of native copper will be withdrawn July 1, 1930, the Department of the Interior announced to-day.

The reserve was created in 1918 and considerable investigation has been carried out. The investigations have shown scattered fragments of native copper are to be found and that considerable deposits of low grade ores exist.

The department decided these resources were best explored by private enterprises and decided to remove the reservation imposed on the district, lying north of latitude 66 and between longitudes 106 and 116.

**Canoeing In The U.S. Gaining In The U.S.**  
NEW APARTMENT BLOCK TO RISE

Washington, Jan. 17.—The plan whereby member banks of the Federal Reserve Bank of the United States would guarantee acceptance of Canadian currency at the prevailing rate of exchange, plus one per cent for remittance charges, remains a plan. There is no prospect, it is understood, of the project being put into effect until the Canadian dollar recovers its usual status of about 100 United States cents. To-day it was slightly above 98.81 cents.

Some improvement in Canadian exchange following decline of interest rates in New York is noted in a bulletin of the Federal Reserve Bank just made public, which says:

"Movements of gold between the United States and Canada are usually seasonal in character. Canadian banks take gold from this country in the autumn to meet the seasonal demands for currency and for additional reserves against their deposits and send gold to the United States in the early months of the year, when currency in circulation and deposits in Canada decline."

"Canada's exports of gold, however, are usually larger than her imports of the metal by an amount of approximately \$40,000,000, representing Canada's output of new gold."

"During 1928, owing chiefly to the high level of interest rates in the United States and the large movement of Canadian funds to this country, exports of gold from Canada to the United States were planned for \$19,000,000."

**Parfitt Bros. Owners and Builders of 15-Room Structure to Be Erected**  
New Block Will Stand at Intersection of Fernwood Rd. and Vining Street

Permit to cover the erection of a fifteen-room apartment house at 1505 Fernwood Road, at Vining Street, was issued at the City Hall this morning by James Barf, chief building inspector. Parfitt Bros. are the owners and builders, for the construction of a handsome addition to buildings in the area.

The plans call for the erection of a three-story apartment type structure to be carried out in brick and tile. It will contain fifteen rooms, and thoroughly modern fittings, embraced in a neat-appearing design. Excavations for the work are already in progress, and construction work will commence shortly.

To date this month \$45,000 worth of new construction has been authorized in permits issued by the city for residential and business purposes.

**NO NEW TRIAL FOR CONDEMNED PRAIRIE YOUTH**  
Regina, Jan. 17.—Seventeen-year-old John Pasowsky, found guilty of the murder of his father, Nick Pasowsky, will be hanged for the crime February 21 unless executive clemency is granted. The Saskatchewan Court of Appeal has refused the plea for a new trial made by the youth's counsel.

Pasowsky was found guilty of the murder in August, 1929. In one confession the youth was alleged to have admitted shooting his father following a quarrel at their farm home at Shebo, Sask.

### BLAMES RATES FOR LACK OF WHEAT HERE

J. A. Maharg, Head of the Panama Pacific Elevator, Arrives in Victoria

Leaders of B.C. Mining Industry Come For Conference With Government

If Victoria had through grain rates on the C.P.R., as it has on the Canadian National, Victoria's million-bushel elevator at Ogden Point would have been filled long ago with wheat and this port would be doing a heavy export business, according to J. A. Maharg, who arrived here to-day from Moose Jaw.

Mr. Maharg is the new head of the Panama-Pacific Grain Terminals Limited, which controls the Victoria elevator. He was formerly a member of the House of Commons and was progressive leader of the west.

"The trouble has been that the Canadian National serves only the northern part of Alberta, where the crop has been light this year and which is served by elevator companies which have a surplus of storage space," Mr. Maharg said.

**LEAVING IN ITS WAKE A TRAIL OF FIRES, FROZEN PIPES AND RADIATORS**  
The cold weather, occurring during the last twenty-four hours, causing property damage and narrow escapes from serious injury for several persons. Among the major occurrences were:

Home of I. M. Sangster, 904 Craigflower Road, burned to ground in early hours of this morning and neighboring houses damaged.

Mr. J. W. Southern and two-year-old baby of 2640 Roseberry Avenue blown from kitchen when water coils in stove exploded, causing havoc in home.

Fire chief's car, driven by Deputy Chief Alex. Munro, and dairy truck, driven by R. M. Smith, 1408 Cassano Street, badly wrecked in crash at corner of Vancouver and Yates Streets this morning.

Several roof- and chimney fires, caused through overlooking of stores and fireplaces by householders have been attended and minor automobile accidents through skidding reported.

F. Napier Denison, superintendent of the Dominion Meteorological Observatory at Gonzales, predicted a continuation of the cold wave, despite the higher temperatures here to-day. The minimum at night was twenty-one degrees, but on the mainland much lower temperatures were recorded, the mercury dropping to twelve degrees in Vancouver and eleven at New Westminster. The interior remains intensely cold and through the prairies temperatures of thirty and forty below zero are general. Owing to high barometric conditions in the northern part of the Province and the existence of storm areas over California, a repetition of the cold weather here here may be expected, Mr. Denison said.

**FIRE GUTS HOUSE**  
The fire at the Sangster home occurred about 5 o'clock this morning. The family was staying for the night in the city had been at home during the evening, when a fire had been lit to warm the house.

**GRAN GROWERS NAME MAN FOR CRERAR'S POST**  
R. S. Law of Winnipeg New Prairie Group President

Winnipeg, Jan. 17.—R. S. Law of Winnipeg is the new president of the United Grain Growers Limited, according to an announcement made to-day. He succeeds Hon. T. A. Crerar, New Federal Minister of Railways and Canada, who has been president for almost twenty-three years.

J. J. McEellan of Purple Spring, Alta., is successor to the former first vice-president.

Mr. Law, who is forty-five years of age, came to Canada in 1911 from Plymouth, Eng., having been educated at Plymouth and Marnham College. He sided in the formation of the Alberta Farmers' Co-operative Elevator Company, which amalgamated with the Grain Growers' Grain Company in 1917 to form the United Grain Growers Limited. In 1921 Mr. Law came to Winnipeg to assist the vice-president and one year later he was elected secretary and last year he became vice-president.

At the election of officers, John Morrison of Yellow Grass, Sask., was named second vice-president and E. E. Bayne, Winnipeg, was selected to fill the vacancy on the board of directors left by the retirement of Mr. Crerar. The executive committee is composed of R. S. Law, president; John Morrison, E. E. Bayne and John Reid of Orada, Sask.

**YOUNG MEN ATTEMPT WINTER ROCKY MOUNTAIN SKI TRIP**  
Times will take them to a height of 9,000 feet above sea level, where temperatures drop to sixty under the zero mark and snow effaces all trail guides visible during the summer.

The adventure was planned last spring and during the summer months food caches were placed along the route, which probably will take the five men along the Athabasca River to the mouth of Robson Creek, thence over Wilcox Pass to the Brazeau River and on to Camp Parker, where they hope to cross the Saskatchewan Glacier and the Columbia Icefield, travel down the Castleguard and Alexandra Rivers to the North Saskatchewan River, on to the Bow Valley and to Banff.

Leaving in its wake a trail of fires, frozen pipes and radiators and other mishaps, the icy wind which swept out of the north forty-eight hours ago had subsided to-day and under the influence of a brilliant sun, the mercury rose to four degrees above freezing at noon.

A number of accidents, directly attributable to the cold weather, occurred during the last twenty-four hours, causing property damage and narrow escapes from serious injury for several persons. Among the major occurrences were:

Home of I. M. Sangster, 904 Craigflower Road, burned to ground in early hours of this morning and neighboring houses damaged.

Mr. J. W. Southern and two-year-old baby of 2640 Roseberry Avenue blown from kitchen when water coils in stove exploded, causing havoc in home.

Fire chief's car, driven by Deputy Chief Alex. Munro, and dairy truck, driven by R. M. Smith, 1408 Cassano Street, badly wrecked in crash at corner of Vancouver and Yates Streets this morning.

## VICTORIA FREE FROM SERIOUS CRIME IN 1929

Deputy Police Chief Reports  
on Thefts and Other Offences  
in City

Victoria was exceptionally free from serious crime during the year 1929. Deputy Chief of Police Harry J. O'Leary reported to the board of police commissioners in his annual statement handed down yesterday.

Mr. O'Leary sounded a note of warning in his report to merchants of the city in regard to the passing of worthless cheques. This had been one of the department's greatest troubles during the year, one store being victimized to the amount of \$1,500.

Only five hold-ups occurred during the year, two of the offenders being sentenced. Juvenile crime was slightly on the increase over the previous year, but the cases were not of a serious nature. Twenty-eight more automobiles were stolen last year than in 1928, but all were recovered. Of 277 bicycles stolen, 171 were recovered.

The identification bureau of the department had done efficient work throughout the year, and fingerprints of 201 people and photographs of 136 people were taken. Over 2,000 new criminal record cards were added to the files of the bureau, making a total of 64,000 records on file.

Following is a comparative statement regarding lost and stolen property in the city during the year:

	1928	1929
Stolen property	\$27,200.00	\$24,700.00
Recovered	14,631.00	16,263.00
Percentage recovered	54%	65.5%
Lost property	1,545.00	1,600.00
Found	738.00	672.00
Auto stolen	135	183
Auto recovered	135	183
Reports attended	6,139	6,650

Successful Since 1889

The following report of Reeve Hayward and the letters between the B.C. Electric Railway Company and the Municipality of Oak Bay explain the bus question as it stands to-day:

**REEVE'S REPORT**

On Saturday the electorate of Oak Bay will be called upon to vote on the following question:

"Are you in favor of the Corporation of Oak Bay entering into an agreement with the Veterans' Sightseeing and Transportation Company Limited (Blue Line) granting to the said company an exclusive right to operate motor buses within the Municipality of the District of Oak Bay subject to the assent of the Legislature?"

I feel that some explanation of this matter and the reason for submitting this question should be given.

When the Veterans' Sightseeing and Transportation Company Limited, which I will hereafter call the Blue Line, first negotiated with the council regarding bus service, they asked for a franchise for fifteen years. They were informed that the council had no power to grant a franchise, but we had certain powers under the Municipal Act to regulate and prohibit motor traffic and define routes. The Blue Line were asked if they wished to proceed under these powers. Their first reply was NO, but

## Oak Bay Residents Hear Both Sides In Bus Line Argument

Reeve Hayward in Presenting Report Reads Letters From B.C. Electric Railway and Blue Line; Representatives of Contesting Companies Appear and Present Their Arguments for Support in Referendum To-morrow.

The bus situation in Oak Bay, was fully discussed at a public meeting held in the Oak Bay Municipal Hall last evening, when a crowded Council Chamber listened to a long report presented by Reeve Hayward and arguments by representatives of B.C. Electric Railway Company and the Veterans' Sightseeing and Transportation Company, the two concerns which are waging war for control of the bus routes from Victoria to Oak Bay and in the municipality.

The question of giving the Veterans' Company, commonly called the Blue Line, the exclusive right to operate a bus service in Oak Bay will be voted on by ratepayers at the polls to-morrow.

Reeve Hayward, who was chairman of the meeting, first presented his report and read correspondence between the council and the B.C. Electric Railway Company relative to a proposed bus route which the company wished to open in Oak Bay. The municipal council, Mr. Hayward stated, was not in favor of any particular company handling the transportation problems of Oak Bay, provided a good service was given at reasonable and satisfactory rates. The rates of the Blue Line had been fixed and could not be changed without the consent of the council, Mr. Hayward said.

**GREY UP TOGETHER**

W. Saville, general secretary of the B.C. Electric Railway Company, representative of W. G. Murrin, president of the company, and A. T. Goward, vice-president of the company with headquarters in Victoria, represented the Electric Railway Company. The electric street cars and the people of Oak Bay had grown up and worked together for forty years, Mr. Saville said, and although the business was not paying at the moment, the company wished to hold all connections with the municipality of Oak Bay and its residents. His company, he said, had no objections to another company coming in to clean competition, but what the company did object to was another company coming in and relying on the street cars to provide service when the equipment of the company failed. The rails are now laid down and the street cars running on a regular schedule, day and night, winter and summer. They could always be depended upon, Mr. Saville told the meeting, and if the buses fail, the worst passengers can do is run for the street car, which was sure to bring them into or out of town. The public looks upon the street railway system as a good old reliable stand-by. The officials of the system are opposed to this, Mr. Saville said, and think it only fair that the older company which has provided service for so many years should be given an opportunity to continue serving the municipality. The Blue Line is now running at a minimum, Mr. Saville said, because of the B.C. Electric Railway, which they know the people of Oak Bay can fall back upon if their motor coaches fail. The bus company is one with limited resources and experience in this line, and would find it difficult to give a really worth while service if it had not the street cars to fall back upon. It would be better to let matters stand as they are now than to give an exclusive franchise to the Blue Line, in the opinion of the general secretary. The matter was a comparatively small one, he said, but it had always been the policy of the company to look after small matters as well as the large ones, and it was only continuing the policy when asking that it continue to serve Oak Bay with a fleet of new motor buses.

**OFFERED \$5,000**

Mr. Goward's opening remarks were brief, but he was later on urged to go into detail regarding meetings held between himself and officials of the Blue Line, when asked by Gordon Cameron if the two companies had had any arrangements, and if the Electric Railway Company had offered to buy out the Blue Line. Mr. Goward stated that he had had several meetings with officials of the Blue Line, and had been asked by Sidney Sangster, managing director of the sightseeing company, if his firm would buy out the competing company. Mr. Goward replied that if the proposal was submitted to the Electric Railway Company in writing he would be glad to take the matter up with the president. Two days later the letter was received by Mr. Goward, offering the B.C. Electric the routes and good will of the Blue Line in Oak Bay for \$50,000, although two days previous Mr. Sangster stated to Mr. Goward that his company was losing \$25 a day. Immediately after mailing the letter to Mr. Goward, Mr. Sangster communicated with the council of Esquimalt asking if his company could commence a service from the dockyard to the city.

Why, asked Mr. Goward, if the Blue Line was losing \$25 a day in a populated district like Oak Bay would they wish to commence services in a less populous municipality like Esquimalt? After several conferences in Vancouver, Mr. Goward said his company offered the Blue Line \$5,000 for the control of the Oak Bay routes, which offer was promptly refused by the Blue Line. Mr. Goward was anxious at all times, he said, to avoid any quarrels and wished to reach an agreement in a peaceful manner. This, however, he said, seemed impossible. He wished to kill any opinions that because his company was the largest and most influential and had the greatest capital behind it, it had a divine right to these services. At the polls on Saturday, he said, he wished each taxpayer to think the matter over carefully and give it the fullest consideration. Whatever was for the good of Oak Bay would please him personally, he said.

**STRONG COMPANY**

E. H. Foot, Sidney Sangster and Archie Aitken spoke for the Blue Line. Mr. Foot in opening his remarks said that there was no company in British Columbia that had obtained so many concessions or so many franchises and privileges as the B.C. Electric. He reported that Mr. Goward said it was a strong company, with millions behind it, and would finish the smaller concerns or get out of business. As one of the most profitable businesses in the summer, Mr. Foot said that Mr. Goward threatened to take the matter over carefully and give it the fullest consideration. Whatever was for the good of Oak Bay would please him personally, he said.

**RIDICULOUS OFFER**

Mr. Aitken said he knew perfectly well the offer of selling the Blue Line routes for \$50,000 was a ridiculous offer. He said that Mr. Goward had said to him that if the Blue Line was to be sold, the B.C. Electric would be the purchaser. Mr. Aitken said that the B.C. Electric was a company in Vancouver. Twenty-four hours later, Mr. Aitken said, members of the Oak Bay Council knew all about the matter, and had evidently read the offer. Mr. Aitken said that he had immediately cancelled the letter and ask Mr. Goward for the return of it to his company.

Mr. Foot later said that if the referendum to-morrow went through, causing the B.C. Electric Railway to take up its tracks and retire from the Oak Bay service, the Blue Line would be a company in Victoria, and to Oak Bay from Victoria. Mr. Foot further asked why, if, as Mr. Goward stated, there was no money in the Oak Bay route his company wished to acquire, it was willing to pick up motor coaches, instead of retiring and leaving the field to the smaller and less prosperous company?

Mr. Goward, in asking a number of questions, reminded the ratepayers that they would have to think of themselves first when voting on the question. Personally he had no sympathy with the B.C. Electric, and he did not suppose many people had. Certainly they had been very dilatory in looking after the residents of the district south of Oak Bay Avenue. But the transfer of the district would have to be considered. If a person traveled into Victoria on a Blue Line bus they would have to rely on the street cars to take them to any other part of the city. It was rather contradicting, he said, after those same people had isolated the street cars from their own municipality. Mr. Cameron was humorous in his talk, but before he had gone very far the Reeve silenced him with the remark that he had risen to ask a few sharp questions, but had immediately promised to make a speech in detail.

Mr. Sangster, as a parting shot, wanted to know where the street cars in Esquimalt were yesterday morning as his buses were asked between 7 and 8 o'clock to go out there and pick up people who had been waiting on the corner. The question was ignored by officials of the electric railway company.

After effort to start an experimental service with such protection, using their nightingale equipment.

Realizing that no such service could be put on a commercial or permanent basis unless protected from competition from other bus lines, the council agreed to pass such by-laws as it had power to do, with a view to giving such protection.

This the council has done in by-laws No. 584 and 590.

An action has been started in the Supreme Court to quash both these by-laws by the B.C. Electric Railway Company.

**NO GUARANTEE**

The Blue Line was not satisfied with the protection afforded by these by-laws, claiming quite correctly, that there was no guarantee of permanency, as they might be amended or repealed by this or any subsequent council, and that no company could be expected to invest \$50,000 or \$60,000 in necessary equipment on such a basis.

Learning that negotiations were in progress between the B.C. Electric Railway Company and the Blue Line, the council refused to make any decision in the matter of an application to the Legislature for further powers, as they would not place themselves in a position to be used by either party to the negotiations.

On receiving assurance that all negotiations had definitely ceased, the council after full consideration decided that the Blue Line should have the opportunity of securing the necessary powers from the Legislature to allow the council to enter into an agreement giving exclusive rights to the Blue Line to operate motor bus services in Oak Bay.

The council has been asked by a petition from over twenty per cent. of the electorate to submit a referendum on the question, and in compliance with the petition, the question will be submitted to you on Saturday.

I might point out that this referendum does not settle the matter; the council has no power to enter into the proposed agreement. This power must come from the Legislature, who may also require the agreement to be submitted to the ratepayers for ratification.

I might add that the agreement has been drafted after full consideration by the council and now ready to be signed by the Veterans' Sightseeing and Transportation Company Limited, and awaits final approval by the council.

I will now read to you two letters which have an important bearing on the willows line with which a new phase of the situation.

To the Reeve and Council of the Municipality of Oak Bay, Oak Bay, V.I. B.C.

Dear Sirs:—

At a meeting of the Reeve and Council held on the evening of December 8, at which the writer was present, the question of transportation service to and within the municipality was discussed; and, though, in a general way, the services now being

Your Money Back  
If You Can Buy for Less

given by this company were reviewed and the probability of further service by us was offered, nothing absolutely definite was suggested.

Since that meeting I have had an opportunity of going into the whole question with out president in Vancouver, and I now wish to lay the following before you:—

The B.C. Electric Railway Company, which takes care of the very large proportion of the transportation needs of Victoria and the adjoining municipalities, has been giving transportation to the residents of the Oak Bay Municipality in good times and in bad times and in all weathers for nearly forty years. It has, as you know, three lines entering the municipality, via the Willows line with which a incorporated the Uplands, the Oak Bay line and the Poul Bay line.

Owing to the extremely large number of privately owned motor cars, these services barely pay operating expenses. Notwithstanding this, our company has always believed that to a great majority of the residents our services are absolutely essential, and the more frequent the service the more the real needs of the community are taken care of. For this reason, our company,

in the face of poor returns, has given a service far in advance of what is really justified by the travel. On the Uplands a fifteen-minute service is given. On the Willows from about noon until 8 p.m. a service every seven and a half minutes is given, and on Poul Bay a two-minute service. And we believe that these services have been and are now a vital necessity to the residents of Oak Bay.

As mentioned at the meeting, we realize that further service is now demanded by the residents, and our company is prepared, therefore, to inaugurate a bus service from the municipality into Victoria and a service within the municipality on routes to be decided upon, satisfactory to your council.

The question of fare is, of course, an important one, and we do not believe that a satisfactory service with the most modern up-to-date bus equipment can be given and maintained from the municipality to Victoria at less than eight cents fare. We suggest, then, that the fare should be eight cents, said fare to carry transfer privileges, which would give the residents direct transportation from any point within the municipality to any point now reached by the company's systems in Victoria, Esquimalt and Saanich. The fare from any point within the municipality to any other point within the municipality to be six cents.

It might be thought advisable to try this out for six months, fare to be adjusted, if necessary, at the end of that time—and this would be quite satisfactory to our company.

The whole question of transportation appears to us to be a very very serious one, not merely for the present, but far more serious for the future. In many cities and municipalities on this continent, in the past few years, the question of transportation has become a matter of life and death, and though for a short time they may have appeared satisfactory, in the end it has been found that a co-ordinated service conducted on proper business lines by a responsible transportation company has been the only satisfactory one. I trust, therefore, that before any irrevocable decision is reached all these matters will be most seriously considered.

Yours very truly,  
A. T. GOWARD,  
Vice-President.

**OAK BAY REPLY**  
Messrs. B.C. Electric Ry. Co.,  
Fort and Langley Streets,  
Victoria, B.C.

Dear Sirs:—

Your letter of December 17, signed by A. T. Goward, was considered by the municipal council in committee of the whole on December 19. Your offer to inaugurate a bus service in and to Oak Bay is noted. The council regrets exceedingly that this offer was not made some time ago, when it would have received the hearty approval of the council. The council would have been glad to enter into an arrangement with your company for a bus service, and could have done so but for your action. The council gave every opportunity and held other parties at bay until your decision was made. However, to the regret and disappointment of the council, your company decided to reject the opportunity given, and compelled the council to look elsewhere for improved transportation service. As you are fully aware, the council has now made arrangements with the Blue Line for a

bus service, and the service has been in operation since September last. For purposes of record, we are instructed to get before you a sketch of recent incidents affecting transportation in Oak Bay.

The Oak Bay car line was in operation before the incorporation of the municipality, and the Uplands line (Continued on page 16)

**NO MORE PILES**

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and salving can do this—an internal remedy must be used. Dr. Leonard's Hem-Roid, a harmless tablet, succeeds, because it relieves this blood congestion and strengthens the affected parts. Hem-Roid has a wonderful record for quick, safe and lasting relief to Pile sufferers. It will do the same for you or money back. MacFarlane Drug Co., Vancouver; Drug Co. and druggists anywhere sell Hem-Roid with this guarantee. (Adv.)

## TARIFF IS BENNETT'S CHIEF TOPIC

Conservatives' Protection Views Laid Before Audience in Vancouver

Premier Tolmie and Hon. H. H. Stevens, M.P., Also Speak

Canadian Press

Vancouver, Jan. 17.—The tariff formed the chief topic of the second address of the western tour of Hon. R. B. Bennett, Federal Conservative leader, delivered before an audience in the Denman Street Auditorium here last night. Mentioning the Sockeye Salmon Treaty, Mr. Bennett gave it as his opinion that the pact with the United States, when in final form, would be satisfactory to all concerned.

Mr. Bennett was accompanied by two other speakers, Premier S. F. Tolmie and Hon. H. H. Stevens, M.P. Premier Tolmie, in a few words, assured Mr. Bennett of the support of his Cabinet in the next Dominion election. Mr. Stevens chose the fiscal policy of the Liberal Government for his main attack.

RAW MATERIALS

"The right to work in their own country is the right Canadian young men and women demand," said Mr. Bennett, dealing with the tariff. "There is one basic cause of unemployment and that is the sending out of our country of raw products and the purchase of them back in finished condition. The finishing process goes to the workmen of other countries. What is the result here?"

In Montreal, Winnipeg and elsewhere, the Conservative leader said, men, willing and anxious to work, were being forced to go to soup kitchens for sustenance by reason of the fact they were being deprived of work through the shipment of raw materials abroad for manufacture.

"For many years," Mr. Bennett quoted Dr. Tausig, professor of economics at Harvard University as declaring, "that the United States has treated Canada as a bully treats a smaller boy." The Conservative leader stated Canada must not be "bullied."

TRADE TREATIES

To Mr. Bennett it seemed the trade treaties concluded by the King Government were "weird and wonderful." Speaking of the treaty with France, he said: "We Canadians give a definite preference to a list of imports from that country. What do we get in return? Canada gets nothing but a 'minimum.' Do we protest against a duty of fifty-three cents against our wheat? We are told we are 'getting the minimum.'"

Stating the Liberals had hoped for a decrease in the United States tariff against Canadian goods and produce, Mr. Bennett said: "The answer was an increase all along the line. Instead of a decrease Canada was faced with increases that cost her \$100,000,000 a year through the Fordney-McCumber bill."

"The result is that 850,000 Canadians have gone to the United States in nine years. They shut out our goods and took our sons and daughters—our greatest asset. Not only were they content to make no protest, but they actually lowered our own tariff in return."

"If I am elected," said Mr. Bennett, "the first session will see legislation introduced to give Canadians an equal opportunity in their own country. If

not, we might as well go out of business as a country."

TOTALS OF IMPORTS

Last year, continued Mr. Bennett, Canada had spent \$902,000,000 in the United States and \$265,000,000 in the British Empire. That \$902,000,000 was "not all for cotton, oranges or products we cannot produce. About \$500,000,000 of it could have been produced and finished in Canada."

He proposed increased grants to agriculture which he thought would give the Canadian farmer a chance to meet his foreign competitor on equal terms. The Conservative Party proposed a tariff not for exploitation, but a tariff which would give a Canadian an equal chance in his own country against dumped products of other nations. Anything more or less than that was unfair, said Mr. Bennett.

Canadian labor had a right to demand its due, said the leader. Why talk of bringing more people to Canada if there was no work for them to do? Lastly, the consumer must be protected from the avarice of the producer, said Mr. Bennett.

"If we had greater interchange of products between the component parts of this great Empire, then indeed we would be free from the threat of hostile tariffs and the caprice of foreign governments," Mr. Bennett declared.

For the work of Hon. H. H. Stevens, member for Vancouver Centre, the Conservative leader had words of praise. He hoped Mr. Stevens would continue in the political service of his country.

SALMON TREATY

Mr. Bennett spoke of "velled allusions" that the Conservatives in British Columbia were not working as a unit.

"It is so regrettable," he exclaimed, "that there should be an effort for political capital to go to the end of trying to split friendships. Some effort has been made in this way in respect to the proposed Sockeye Salmon Treaty. The Conservative Party is desirous of a treaty."

The proposed Canada-United States Sockeye Salmon Treaty, continued, had been made the object of amendments by the United States Congress. Mr. Bennett felt the treaty as finally altered would meet with general approval in Canada and elsewhere.

TOLMIE'S POSITION

Premier Tolmie said: "We, the members of the Provincial Government, intend to take a keen interest in the next election, and we will be in any way with our Federal friends. Towards this end, the Provincial Government, in the interests of Canada, will lend every assistance."

Hon. H. H. Stevens believed the bulk of the shrinkage of 240,000 souls he said had been seen in Canada's population since 1921 consisted "native born Canadians." After quoting population figures, Mr. Stevens said \$30,000,000 had been spent by the Dominion Government on immigration since 1921. "You have a shrinkage of 1,210,000 souls since this Government took office," Mr. Stevens said, "and we have not even held pace in population with our neighbors. Increase, this set of facts is startling."

Mr. Bennett's programme for to-day included an address to the Women's Canadian Club of Vancouver.

Canadian Press

Washington, Jan. 17.—The House roads committee yesterday approved the Sutherland bill to provide for investigation by a joint commission, chosen from the United States and Canada, for construction of a highway to connect the United States with Alaska. The road would run through British Columbia and the Yukon.

Representatives of the War Department and the Alaska and Pacific Coast chambers of commerce appeared in support of the measure, which would provide \$25,000 for the expenses of the investigation.

Delegate Sutherland of Alaska said the highway, if built along the interior route, would be 1400 miles long, but would need to run only 1000 miles if constructed along the coast route.

Captain Howard M. Tost of the army engineers read letters from the Alaska Highway Commission and the Secretary of War in favor of the measure. Adam E. Goodner of Los Angeles, who said he spoke for all the coast chambers of commerce, endorsed the project.

The official report of the Air Ministry said the R-100 had "attained an estimated speed of 61.5 an hour."

Cardington, Eng. Jan. 17.—The British dirigible R-100, on its first successful test yesterday which lasted more than twelve hours. It left its hangar shortly after 10 a.m. and was not again attached to the mooring until 10.40 p.m.

After going over their records, officers of the R-100 claimed their craft had beaten the Graf Zeppelin's and all other dirigibles' records by making a speed in excess of eighty-one miles an hour with 600 horsepower in reserve. They said the ship was steadiest at a speed of eighty miles an hour.

The official report of the Air Ministry said the R-100 had "attained an estimated speed of 61.5 an hour."

## HEART TROUBLE OR INDIGESTION?

Palpitation, Heartburn, Pressure,  
Shortness of Breath

THREE MINUTES' TEST  
TELLS WHAT'S WRONG

While many people have Heart Trouble, there are thousands more who live in constant fear because they think they have it.

Probably ninety per cent of the self-diagnosed "Bad Heart" symptoms—palpitation, shortness of breath, difficult breathing, a feeling of heaviness or pressure around the heart—are mainly caused by an excess of acid in the stomach. Dissolve this acid, and your heart symptoms promptly disappear.

You can prove it in three minutes. From this drug store take some pure Bismarck Bismarck—powder or tablets. Take a little in water after your next meal. Watch results. If you feel better, your heart is not in danger. If you feel worse, you have found your real trouble—Stomach Hyper-acidity—and this condition Bismarck Bismarck is guaranteed to stop. There is nothing better, safer, surer for acid-caused digestive troubles, and a private trial proves its value. (ASTV.)

## PLANS TO CUT IMMIGRATION

Canadian Press

Washington, Jan. 17.—A study of the need for further restriction of immigration into the United States is being made by the House Immigration committee. Yesterday it opened hearings on two bills to limit entry of aliens from countries of the Western Hemisphere. The two measures, introduced by Chairman Johnson of the committee and Representative Box of Texas, the ranking Democrat of the group, although widely at variance in the methods they propose, have as their common goal the restriction of such immigration to an annual maximum of approximately 50,000.

Preparing the groundwork for its second study in successive Congresses of this phase of the immigration question, the committee heard Assistant Secretary Husband, in charge of immigration for the Labor Department, and Lawrence Martin, chief geographer of the Library of Congress. They explained the manner in which the two proposals would operate, the results they expected them to bring, and the geographical divisions involved in any effort to stem the influx of aliens from the Western Hemisphere.

Meanwhile, representative Bacon, Republican, New York, proposed legislation to reduce to twenty-five per cent the number of Mexicans who would come into the country annually.

Still another immigration bill, although not applicable to the Western Hemisphere question, was introduced by Representative Welch, Republican, California, who proposed to stop all immigration by classifying Philippines as Orientals along with the Japanese and Chinese, who under present law are forbidden entry except for temporary visits.

"The result is that 850,000 Canadians have gone to the United States in nine years. They shut out our goods and took our sons and daughters—our greatest asset. Not only were they content to make no protest, but they actually lowered our own tariff in return."

"If I am elected," said Mr. Bennett, "the first session will see legislation introduced to give Canadians an equal opportunity in their own country. If

## WHERE SEVEN DIED AS TRAIN HIT BUS

This striking picture shows all that remained of a school bus, loaded with boy and girl basketball players and rosters, after it had been struck by a fast Pennsylvania train at a crossing at Shreve, O., killing seven and injuring nine. The victims, all of Burbank, O., were homeward bound after a game and a school victory song was believed to have drowned out the warning whistle of the speeding train. All the dead were boys.

## Needless Pain!

Some folks take pain for granted.

They let a cold "run its course."

They wait for their headaches to "wear off."

If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drug stores with complete directions.

## FIRE DESTROYS QUEBEC SCHOOL

Quebec, Jan. 17.—A school kept by Roman Catholic brothers at Riviere du Loup was destroyed by fire yesterday afternoon. No casualties were reported. The 110 pupils who attended the school had left for the day. The building was valued at \$17,000.

### ORCHESTRA LEADER DIES

San Francisco, Jan. 17.—Art Hickman, noted dance orchestra leader, died here yesterday after a major operation. He was forty-two years old and was born and educated in San Francisco.

## Vancouver Man Critically Injured In Connecticut

Thompsonville, Conn., Jan. 17.—A man identified by letters in his clothing as Jeremiah Cronin, about fifty, of Vancouver, B.C., was probably fatally injured last night when he was struck by an automobile while he was walking along the state highway. He was taken to Mercy Hospital in Springfield, Mass., suffering from a fracture of one leg and internal injuries. Howard E. Ansen of East Hartford, driver of the automobile, is held in \$1,000 bail pending the outcome of Cronin's injuries.

## A MINISTER'S WARNING

The fundamental soundness of Canada's business prosperity has been reflected in the operations of her forest industries during the year just past. Increased volume of trade has more than offset the lower prices which have prevailed for forest products, and there is every reason for believing that the gains made will be augmented during the coming year.—Hon. Charles Stewart, Minister of the Interior, in his annual review of the forest situation in Canada.

ONE OF THE OUTSTANDING FEATURES of Mr. Stewart's survey of forest conditions and the industry generally is his candid observations about forest fires and the imperative necessity of still more caution in order that the annual wastage may be very considerably curtailed. He says an extremely serious fire season experienced in almost all provinces has focussed public attention on the question of timber supplies. Over one-third of the land area of Canada is suitable only for timber production, but, unless the ravages of fire are very substantially reduced, there is certainly very grave danger that the vast industries dependent on wood will be faced with a serious shortage of raw materials. The situation is aggravated, the Minister proceeds, by destructive methods of exploitation which not only militate against a second crop, but, by leaving enormous areas of undisposed slash, intensify the fire hazard, and in many cases give rise to conditions under which fire control during abnormally dry periods is well nigh an impossibility. Certainly the whole question of forest fire protection is one with which Canada must cope much more effectively than in the past, and to permit of a proper review of the situation, it is Mr. Stewart's intention to call a conference with the provinces on this matter early this spring.

The Minister then concludes his survey with the following comments on what is being accomplished and what he considers the best means to bring home to the public the importance of this question:

Unfortunately we are still too near in point of time to the close of the season to allow of a comprehensive survey of what actually transpired. After a season of such severity, it takes the forestry authorities some considerable time to piece together the results. Consequently, the detailed records and statistics both as to number of fires and losses are not available at this date. We do know, however, in general, that the number of fires occurring was unprecedented; but that, as compared to previous years of high hazard, the losses resulting from these fires were relatively much lower. This result has been due to increased efficiency all along the line, and Canada has come through the season of 1929 optimistic that efforts can be made adequate to cope with forest fires under all conditions, provided the necessary public support is secured. This is perhaps the outstanding lesson of 1929, because previous abnormal fire years engendered the pessimistic attitude among the forest authorities affected, that they were, after all, facing uncontrollable conditions. That attitude has been dispelled and has been replaced by a certainty that Canada can, if she wishes, vanquish the fire fiend.

On the other hand, this lesson has also been learned, namely, that we must intensify our efforts in fire protection, in prevention through public education and elimination of hazards, as well as in detection and control by the use of every modern facility that science can employ. The forests of Canada provide large revenues, and it is obvious that a greater proportion than hitherto of the value secured must be turned back into the forests for their protection and proper administration.

It has been emphasized many times, of course, that sheer carelessness on the part of those who use the wooded areas is responsible for a great deal of the destruction caused by forest fires, and until the general public makes up its mind to recognize the fact that such carelessness directly affects its pockets, the country will not very materially reduce the size of its annual ash heap.

## SOOTHING SYRUP

PREMIER TOLMIE WAS IN AN EXPANSIVE mood at the meeting in the Royal Victoria Theatre on Wednesday night. He predicted that Mr. Bennett would be Prime Minister of Canada before very long, and declared the undiluted, unfaltering support of his government for the opposition at Ottawa.

In the special circumstances of the occasion it was natural enough Dr. Tolmie should give this soothing syrup to the federal Conservative leader. Mr. Bennett had just been given a dose of bitter medicine, known as the Sockeye Treatment, prescribed by the Doctor, and had swallowed it, spoon and all. Similar doses were given Mr. Plunkett, Mr. Dickie, Mr. Brady, and the other followers of Mr. Bennett at Ottawa, and were followed by as much syrup as there was left in the bottle. Mr. Plunkett, who apparently suffered more acutely than anybody else from the Doctor's prescription, had to be given a liberal dose. Reports from the clinic do not say whether General McRae took his medicine or not. However, we shall know after the Ottawa House has met.

All things considered, the Doctor had good reason for his good humor. His patients were doing well after a severe siege, and as far as he could see there were no symptoms of a recurrence of their malady. Indeed, Mr. Bennett's renunciation of his opposition to the Sockeye Salmon Treaty was very complete, in the light of the violence with which that pact was attacked by himself and followers in the House of Commons last session. Therefore, it would have been ungracious of Dr. Tolmie if he had not said something nice about Mr. Bennett, and it would have been more ungracious of Mr. Bennett if he had not said something nice about Mr. Plunkett after leaving him so high and so dry.

But Premier Tolmie made one reference to Mr. Bennett which, while it must have struck many as very apt, must have been received by the federal leader with a little mental note of interrogation. This was his comparison of Mr. Bennett's activities—po-

litical tours, we presume—to those of "the proverbial grasshopper." Now, whatever may be the virtues of a grasshopper, it is considerable of a nuisance. Indeed, we have heard it called a pest. It hops from point to point without any definite course—or shall we call it policy?—clacking all the time in a meaningless way. Was it possible that when Dr. Tolmie compared Mr. Bennett's activities to those of the grasshopper he was thinking of the leader's tour of British Columbia last summer? We wonder if the simile appealed to the Bennett sense of humor.

## LETHBRIDGE AND SASKATOON

TO OUR EXCHANGE TABLE WITHIN the last few days have come special numbers of two important prairie newspapers. One is The Lethbridge Herald and the other is The Saskatoon Star-Phoenix. Both contain interesting and instructive reviews of industrial and agricultural activities during the year 1929 in their respective communities. Both are remarkably well turned out in the literary and mechanical sense.

The dominant note struck in both these special issues is one of unbridled optimism. The Herald, for instance, tells us that southern Alberta's harvest was not only "one of the best ever taken off," but also that it was gathered in record time because of the increasing use of the new combined reaper-threshers, known familiarly as "combines." So satisfactory was the result that the October-November clean-up of what are known as "machinery notes" was higher than in any year except 1917, when a fairly good crop of wheat sold at more than two dollars a bushel. We also learn from this special issue of The Herald that the district of which Lethbridge is the thriving center no longer is entirely dependent upon any one crop. The diversity of its production has freed it from this condition. Honey, potatoes and sugar beet now figure largely in the crop returns. These good tidings at the year end from Lethbridge, therefore, stand out in contrast with a good deal that recently has been said in the east about conditions in the west.

As far as the comprehensive review which The Saskatoon Star-Phoenix gives of Saskatchewan and Saskatchewan generally is concerned, it is only necessary to say that it has required no fewer than 140 pages to accommodate all the material its staff has collected and presented to its readers in such an entertaining and informative manner. Perhaps the account of the building activities in the last year is the best index of the progress Saskatchewan has made. This follows the record home-building of 1928, when something like two new residences were finished and ready for occupation every day of the twelve months, development which has been well maintained.

The Times congratulates both The Lethbridge Herald and The Saskatoon Star-Phoenix upon the fine account of the progress made in their respective communities in the year just closed, and predicts that the encouragement they have given their readers will be reflected by the end of 1930 in another account of new development.

## THE FAITH OF A SCIENTIST

IS THIS MODERN AGE AN ERA OF doubt and broken faith? Not if you take the word of Dr. Robert A. Millikan, the famous physicist who recently won the Nobel Prize.

In the current issue of The Golden Book Dr. Millikan is quoted as follows:

"I believe that one of the greatest contributions a country ever can or ever will make to world progress will consist in furnishing an example to the world of how the religious life of a nation can evolve intelligently, inspiring, reverently, completely divorced from all unreason, all superstition and all unwholesome emotionalism."

This, coming from a scientist, is rather significant.

## WHAT OTHER PAPERS SAY

The suggestion is made by an exchange that war veterans who are to get census jobs ought to get a good deal of fun out of listing the names of those who got rich during the war.—Toronto Star.

## BONNE ENTENTE

The Detroit News

Why shouldn't we have the closest and freest possible trade relations with our Canadian neighbors, who are more like us than any other people in the world? Their economic and social interests are absolutely identical with ours. Neither in morals nor economics is there any more reason why we should erect barbarous tariff barriers against them than there is why the rest of the United States should build a tariff wall against the great Northwestern States of the Union, or why Massachusetts should put up trade barriers along the boundary lines which separate her from Vermont, New Hampshire and Maine. The destinies of the two countries are the same. No latent racial enmity exists between them—only some ancient and really inconsequential political associations and prejudices. And there is not one of the latter which does not abate with time, intelligence and comparison. To the glorious mutual advantages that would flow from the economic harmony of the great North American continent.

## SAM MCBRIDE'S DEFEAT

The Toronto Star

Mayor Sam McBride went down to defeat yesterday with the town planning by-law as his platform. He attempted to do what he believed to be a great thing for the city, and his belief that it was a great thing which he was endeavoring to do was shared by the Toronto Board of Trade, the Trades and Labor Council and most of the representative bodies and leading men of the city. Mr. McBride throughout his career in municipal affairs has always had the courage of his convictions, never shirked an issue nor evaded a declaration of his opinions. In addresses delivered all over the city he advocated the passing of the by-law and gave his hearers to know that he would rather go to defeat himself if the by-law were beaten. He wanted to see Toronto take on a new era of progress and he stood by the improvement plan which had been drawn up after exhaustive study by the ablest men who could have been secured to deal with the matter.

It is comparatively easy, however, for the opponents of a money by-law in a large city to spread among the people suspicion and distrust of "the big fellow" downtown, and certainly a great deal in the way of insinuations and aspersions against almost everybody who advocated the proposed improvements was published in two newspapers and circulated about the city. It is always more easy to arouse prejudices than it is to dispel them or reason them away.

## A THOUGHT

He that committeth sin is of the devil; for the devil sinneth from the beginning.—John 8:44.  
If the devil take a less hateful shape to us than to our fathers, he is as busy with us as with them.—Lowell.

## Loose Ends

It is cold on this side of James Bay—but it is the zero hour on the other side for the Legislature will be here soon—and you had better look it over this year.

By H. B. W.

IF YOU have been finding the weather lately rather cold you may take comfort in the fact that it is not only cold in the seats of the mighty across James Bay; it is the very zero hour of the year, the last period of hectic preparation before the Legislature's annual session, the days during which, as was pointed out in one of the Vancouver papers recently, cabinet ministers wonder whether they have left anything out of their estimates and the Prime Minister wonders how much he can leave out of his speech from the Throne. Yes, incredible as it may seem, the Legislature is about to come back into our midst, scarcely, as it seems, having said good-bye after its last session.

WELL, THE Capital will face the prospect with fortitude as it has faced sixteen other Legislatures and still lived to tell the tale, for we are a hardy people on this side of James Bay. Yet, the Legislature is coming back, and after the first shock of that idea is over, the prospect does not appear so alarming after all. The Legislature, when all is said and done, that is when more is said than done—the Legislature is a nice, comfortable kind of thing to have around every winter, and the wonder is that so few people appreciate it.

THROUGHOUT THIS vast Province, in the mining camps of the southern interior, on the fruit ranches of Okanagan, in the wilds of Cariboo, among the fifty-six surviving inhabitants of little Barkerville, the daily doings of the Legislature across James Bay are read and pondered and debated around the fire in the evenings; but here, separated from the Legislature only by the breadth of James Bay and the Causeway, few people bother even to attend it. After the first opening ceremonies the attendance usually slumbers down to a few old gentlemen who have nothing else to do, some cabinet ministers' wives waiting to drive their husbands home, and half-a-dozen ladies who find in the draughty legislative chamber a place strangely conducive to knitting pink sweaters. As a Capital City we are strangely unmoved by the presence of the Legislature, and the Legislature, I imagine, must feel that we are a rather inhospitable community.

WHEN THE Legislature meets this year go and see it occasionally. Encourage it by gaping over the railings of the strange's gallery some evening when the estimates are under discussion, when Premier Tolmie is sitting back in his specially large chair beaming on Mr. Pattullo, and Mr. Pattullo is beaming on Premier Tolmie, and Mr. Speaker Jones is sunk in his specially extra large chair, with the traditionally preposterous three-cornered hat of office on his head and thinking, perhaps, of spring in his own Okanagan, and one or two tired legislators are dozing unobtrusively in the background, and some earnest gentleman from the upper country is discussing the grasshopper pest of 1929, and the hideous yellow lights are glaring above like illuminated bunches of bananas, and the nude statues which support the roof seem about to fall over under the strain, and the country's business is going forward in the good old way.

YES, BY all means go over James Bay this session and observe the Legislature in its varying moods, when it is loquacious at the beginning, when it is earnest in the middle, when it is tired and cranky towards the end. Observe the Legislature and you will learn many things about public affairs that you never suspected before. One of the chief things you will learn about public affairs is that the Legislature, on the whole, is really a decent old body after all, composed of men of our own kind, no better, no worse, and doing their best, according to their lights—a best which is not so good, perhaps, as some of us could do, but for better than most of us could do.

A DEBATING team of the University of British Columbia will visit Saskatchewan shortly to debate with a team from the University of Saskatchewan the resolution that "Total Disarmament is Essential for the Attainment of World Peace." On this a learned and reputable commentator of Vancouver thus comments: "So long as the world is in the mood to fight it is absolutely useless to scrap armaments. You only reduce the actual fighting material of the world by that means; you do not remove the proportional capacity for fighting. If a man wants to fight, he will do it with a stick or a syringe. Failing these, he will fight with teeth and toenails. He has done it before and can again. But

## Kirk's Wellington Coal

KIRK COAL CO. LTD.

1224 Broad Street Phone 139

If you really succeed in instilling into men's minds and souls the idea of perpetual peace, it does not then matter whether he has weapons or not."

THE LAST sentence of this commentator's comment, of course, is quite right, but the other parts, though essentially right also, in their real meaning are quite wrong. If you take away men's modern weapons and they still fight, it is true that you still have war, even though it be with a stick or a syringe. But a stick and a syringe surely are better for everyone concerned than the gas, disease germs and death rays, which science is busily preparing for the next war. Indeed, if we could get men back to fighting in the old-fashioned fashion with sticks and scythes and a few crossbows, a war now and then wouldn't matter much. It would leave the non-combatants safe and would not beggar the victorious nations and threaten to destroy civilization. If we could get back to that basis there would be again something romantic, something respectable about war, which qualities hardly attach to the submerging of merchant ships, the bombing of undefended cities, and the slaughter of children. In fact, if we could eliminate our civilized methods of war and get back to the old methods we might find that we were really civilized—we might fight like gentlemen again in the manner of our ancestors. And being civilized, we probably would give up the business altogether.

# To the Electors of Oak Bay

## Bus Franchise Referendum

### SALIENT POINTS

#### Brought Out at the Meeting of Ratepayers Held in Oak Bay Last Night

1. The Reeve and Council were asked by a taxpayer: Do you recommend the ratepayers to vote in favor of the referendum?

The Reeve refused to be committed on this point.

2. A ratepayer asked: What would be the position of the Municipality in the event of the Blue Line suspending operation and the B.C. Electric having ceased to give service?

The reply from the Reeve was: "We should be without service"—"Like a man who has lost his house by fire." He'd be on the street.

3. A question was raised by a taxpayer as to whether or no the conditions in the agreement between

the Blue Line and the Council could be enforced in the event of the Blue Line deciding to suspend operation, to which the answer came—"No authority other than cancellation of the franchise, thus leaving the Municipality, for the time being, with no means of organized transportation."

4. In answer to a taxpayer as to what the B.C. Electric was prepared to do in the matter of a co-ordinated bus and street car service, Mr. Goward replied—That the Company was prepared to inaugurate a bus service in conjunction with the street railway system, with universal transfers from the Municipality into Victoria, and a service within the Municipality, on routes to be decided upon satisfactory to the Council.

*Before you vote on the Bus Franchise Referendum the following points should have your careful consideration:*

#### The Granting of an Exclusive Franchise Will Mean:

##### THE IRREVOCABLE TYING-UP WITH ONE CONCERN ALL THE BUS SERVICE IN OAK BAY

The door closed for all negotiations with other transportation concerns for a long period of years.

##### PRECLUDING ALL POSSIBILITY OF THE ESTABLISHMENT OF A CO-ORDINATED BUS AND STREET CAR SERVICE

Co-ordinated bus and street car service is being adopted with universal satisfaction in a number of cities and communities.

##### RESTRICTED TRANSFERS

People living a distance from their work or place of business will often be called upon to pay two fares.

##### PREJUDICIAL TO PRESENT ESTABLISHED TRANSPORTATION

An unprofitable street car service will become even more unprofitable, leading to an inevitable reduction in service and a possible suspension.

It is submitted that the granting of an **EXCLUSIVE** franchise at this time is something that is totally unnecessary.

Such a franchise **WOULD NOT INSURE THE TRANSPORTATION NEEDS** of the municipality being properly supplied, but would have the effect of **TYING THE HANDS OF THE MUNICIPALITY AND THE PEOPLE** in regard to transportation matters, and would lead to far-reaching results of a most unsatisfactory nature.

#### The Way for Negotiation Should Be Left Open

The B.C. Electric Railway Company has placed before the Oak Bay Council a proposal to establish a co-ordinated bus and street car service, with universal transfers. Should an **EXCLUSIVE** franchise be granted to an independent bus company, it would definitely preclude the possibility of all further negotiations along these lines, or in any other direction.

**SUCH A CONDITION OF AFFAIRS WOULD BE MOST UNDESIRABLE**

**B.C. ELECTRIC**

*If you require transportation to the poll on Saturday, Telephone 2117, and a car will be placed at your disposal.*

with \$5,000 cash, for Furrier Business; experience not necessary. Will give references. Apply French Furrier, 1238 Fort Street. Phone 2118.

Princess Patricia Lodge No. 238 Order of Saint George, will hold their regular meeting to-night in Harmony Hall, 724 Fort Street. After a short session a what drive will be held, commencing promptly at 8.45. Members are urged to attend at 7.30 p.m. sharp.

The fastest shower of rain ever measured fell at Opdyke Camp, California, April 5, 1926, when 1.02 inches of rain fell in one minute.

ONCE UPON A TIME  
Marion Talley, retired opera prima donna, was too busy practicing singing when a little girl, to attend parties, or have "boy friends." At 23, she never had a sweetheart and lives on a Kansas farm.

## ROMANTIC DAYS OF CANADA RECALLED IN BALLAD OPERA AT SEA-MUSIC FESTIVAL

Recalling the romantic times when Canada was a French colony—the days of Champlain and Fort Royal—the ballad opera, "The Order of Good Cheer," which was rendered with such acclaim last night as the feature of the Sea Music Festival at the Empress Hotel this week, will be repeated in the programme to-night. The ballad opera, produced in the striking French-Canadian costumes of the times.

Ulysses Paquin as the Baron de Pontrecoeur and John Goss and Herbert Howells, are taking the leading solo parts in the ballad opera, while there is a company chorus which joins in the martial lays and love songs. George H. Hallet took the part of the Indian chief, at the head of other Indian characters who play a part.

Others in the cast were: Alfred Heather, L. Bullock-Webster, Aubrey Clarke, Lupton, Sydney Nicholas, J. L. Evans and Miss Kathleen Moore.

### PROGRAMME FEATURES

Miss Mary F. James and John Goss were the feature of the rest of the programme last night in their interpretation of one scene of varied characters. Miss James was accompanied by Harold Eustace Key. Mr. Goss won great applause with his programme of English folk songs, of which he is one of the most noted authorities in the world. He was accompanied by William Dickinson.

Another outstanding bit of work of the evening was that of Madame F. C. Hodgson, of rich contralto voice, with her series of Hebridean songs arranged

by Marjory Kennedy Fraser and a number of songs of the sea.

### DANCE NUMBERS

The light part of the programme was provided by the group Morris and comic country dances adapted from the maritime dances of England given under the direction of Constance Farrell by the following dancers: Margaret Ames, Helen Ames, Una Barton, Dorothy Darr, Peggy Elliott, Margaret Farrell, Joan Farrell, Muriel Gaunt, Helen Ritchie, Angus Rankin, Laurie McQuirk, David Young and Hugh Farrell. They were accompanied by Mrs. C. J. James.

The Sea Festival orchestra is composed of: First violin, W. F. Tickle and A. Prescott; second violin, H. Wood, Miss J. Wilkinson; cello, Harold Taylor; bass, H. Day; flute, J. H. "Jenny" White; clarinet, W. Easton; trumpet, W. Davidson; trombone, W. Kirkwood; tympani, H. Pigot.

Sea cadets under Lieutenant H. W. Tribe and Sub-Lieutenant C. M. Henry act as ushers.

### PROGRAMME TO-NIGHT

It was announced to-day to avoid disturbance, holders of tickets must be in their seats before the programme starts and late comers will be admitted only between numbers.

To-night's programme will include: Overture, "Phylomathos Hoe"; "Bound for the Rio Grande," Sea Chantey Ballad Opera, B.C. Morris dancers; Gertrude Huntly-Green, pianist; Herbert Heyner, celebrated English baritone, and "The Order of Good Cheer."

## YOUR BABY AND MINE

by MARY MEXER ELLER

Mrs. Ellers will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

### MOTHER'S VOICE OFTEN TRUSTS INDEX TO HER EMOTIONS

When mothers get tired and cross, and of course mothers do, their voices begin to rise and sharpen. They become querulous. "Oh, how can you be such a naughty boy and make so much work for mother? Didn't I just put on your coat and leggings and mittens and get you all ready for our doors and now you want to come in again?"

"Paul Foster! Put that howl down this very minute. Don't you know better than to touch the horn? When baby, literally throws the bowl on the table in his agitation to get out of the room, she says to herself, 'This is only an example of a mean disposition. There isn't a child alive who isn't irritating to his mother and she is too young to understand that mother's provocation is keen. He doesn't know that she is so tired and that her back is aching furiously, or that she sat up until late at night putting the last stitch in her rompers, he is so near to-morrow. He only knows that her voice goes shivering through him like a discordant string twanged by harsh fingers. It makes him want to run away, to throw things around."

CHILD'S CRYING MAKES SITUATION MORE UNBEARABLE

If he cries, matters become worse. His crying pulls the string tighter and his mother loses all control. It isn't only the voice that shows her emotion, but the rough hands. She pinches when she picks him up, handles him as if he were insensible and unfeeling. She has lost her own sensitiveness because she is angry, her emotions confuse her.

Baby feels this. His mother's voice disturbs him so that he chokes on his food, frets and cries, is unable to sleep. Older children know no better what to expect—they just know the storm is brewing. Whirlings are all wrong. Their world is in confusion.

Calm down. If you can't control yourself what can you expect of the children? The keen-eyed mother sees that her baby is upset when she speaks in a quick, angry voice. Some mothers have a particular tone just for their children—a weary tone, a whiny tone, that expresses how much they think they are doing for their family and how little they are getting in return.

"Oh, why are you so lazy?" this type of mother says to her young son. "Everybody in this neighborhood must say how untidy we are because of those papers blowing all over the yard. Why can't you pick them up and pick them up?"

Does that make him want to get out and pick up papers? Mercy, no. What child cares what the neighbors think? Given a pointed stick and a basket and told to imitate the man in the street and park who prods papers and stuffs them in his bag, the child goes out with an air of emulation, busy, and happy to be busy.

Listen to your own voice. How easily children are controlled by a tone that arouses confidence in their mother's love and gentleness and reasonableness.

remainder for various other misdeemeanors in connection with traffic operation.

"The traffic squad has maintained a vigilant patrol of the city's streets, paying special attention to the speeding and reckless driving of motorists, the observance of the stop signs on the arterial highways, the proper parking of vehicles and keeping the traffic lanes clear of obstruction."

"The boat, bank patrol, train and market traffic, the escorting of the Canadian Pacific express while transferring money to and from the wharves have been regularly attended to."

"Traffic extraordinary, such as parades and special functions, have been attended to with the co-operation of the patrol department."

"A general supervision of traffic regulations has been maintained."

Children's Hour—The Children's Story Hour will be held on Saturday morning at 10 o'clock in the Y.W.C.A. Miss King will be present to tell stories. All children will be made welcome.

## TWENTY-FIVE YEARS AGO TO-DAY

THE VICTORIA DAILY TIMES, JANUARY 17, 1905

The assessment board resumed its duties this morning. Col. Warren, of Vancouver, and a deputation from the Vancouver Board of Trade appeared and gave their views. W. L. Pagan, assessor for the Vancouver district, was also present.

Last evening the new City Council got down to work, forming in semi-circular order before His Worship from left to right in the following manner: Alderman Fullerton, Douglas, Hanna, Hall, Elford, Oddy, Fell, Stewart and Goodacre.

Weather forecast: Victoria and vicinity—Light to moderate winds, unsettled, mild and showery.

John Oliver, M.P.P., held a public meeting at Ladner on January 12, to discuss the working of the Provincial Assessment Act (1904). A. De K. Taylor was voted to the chair, H. J. Cheswell acting as secretary.

About forty passengers arrived from West Coast ports last evening on the steamer Queen City. The vessel has been as far as Quatsno on the trip and brought back from Unalakleet forty tons of ore, which was taken to the Ladysmith smelter.

R. Marpole, superintendent of the Pacific division of the C.P.R., is among the officials of that company in this city to-day.

From reports received from the West Coast on the steamer Queen City last evening, it would appear evident that not many of the Indians will this year go sealing before the season opens in the Behring Sea.

It is announced that a twenty-round fight has been arranged by the Savoy management between Ed Smith, of Seattle, and Collins Hill, of Victoria. The contest will take place January 20. Smith is expected to arrive from the Sound to-morrow afternoon, accompanied by his trainer.

## REGINALD LOTT IS ELK LEADER

Installation of Officers For 1930 Will Take Place on February 6

REGINALD H. LOTT

Reginald H. Lott was elected exalted ruler of Victoria Lodge No. 2, Benevolent and Protective Order of Elks, at the annual meeting, held last night at the Elks' Hall, Douglas Street. Mr. Lott succeeds the retiring exalted ruler, Ernest L. Stock, who was warmly thanked for his services.

Other officers chosen include David Gregson, esteemed leading knight; Edgar Jones, esteemed loyal knight; William Erickson, esteemed lecturing knight; P. A. Raymond, secretary; A. D. Findlay, treasurer; Douglas Gregson, inner guard; and Joseph Levy, tyler. The trustees include Darrell W. Spence, Robert Watson and Ernest W. Butler.

The new officers will be installed at a ceremony to be held on February 6, when J. Walter Lorrimer, district deputy grand exalted ruler, will officiate. Reports submitted last night showed progress made along all lines during the year, and led to sincere congratulations to the retiring officers.

Mr. Stock expressed his appreciation for the loyal support received, and mentioned in particular the services of the chaplain, J. W. Gillis; R. H. Metters; the esquire, David Croston, and Arthur Patton, legal adviser to the lodge.

A barn dance is to be held on January 23, at the Elks headquarters for lodge members and their friends.

In Lake, in Yellowstone National Park, sends part of its waters to the Atlantic and part to the Pacific at certain seasons.

It is said that Alexander Dumas, the author of "The Count of Monte Cristo," is the author of more than 1,300 volumes.

Hair will stretch one-fourth of its length and retreat nearly to its original length.

## MARIE JOSE, ITALY'S NEXT QUEEN

All Italy has opened its heart to the little Belgian princess who, through her marriage to Crown Prince Humbert, some day will be its queen. In these newest photographs, you see the bride and groom and, lower left, the Lady-in-Waiting to Princess Marie Jose. She is Miss Madeleine de Lantshere, a girlhood friend of the bride. Marie Jose, shown at top, adhered to her plan as the traditional "white bride" and, thus, continued, was quickly recognized by cheering throngs wherever she appeared with Prince Humbert, lower right.

## "Skinny! I Gained 11 Lbs. in 8 Weeks and Boy Friend"

"After trying several tonics I tried Ironized Yeast. In 8 weeks gained 11 lbs., new complexion, round limbs; best of all a boy friend"—S. M. Saline

Men and women are amazed at gain of 6 to 15 lbs. in 3 weeks. Ugly hollows vanish. Bony limbs round out. Sallow, muddy, pale skin gets healthy color like magic. Nervousness, indigestion, constipation disappear overnight. Sound sleep. New pep from very first day.

Two great tonics in one—special weight-building Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmediated yeast. Results in 1/2 time. No yeast taste, no gas. Don't go round "skinny," ugly, unattractive. Get Ironized Yeast from drugstore to-day. Feel great to-morrow. Money back from manufacturer if not delighted with results.

(Advt.)

## ISLAND CITIES MAKE CHANGES AT CIVIC POLLS

Dr. G. A. B. Hall Triumphs Over F. S. Cunliffe For Nanaimo Mayoralty.

As a result of keen election contests held in island cities yesterday many changes in civic leaders for 1930 are recorded. Dr. G. A. B. Hall, well known in Victoria and at one time a member of the Legislature for Nelson, won an easy victory over Frank E. Cunliffe in the Nanaimo mayoralty fight. F. H. Steele was re-elected for another term as mayor of Port Alberni in a four-cornered contest. J. R. Motion was made mayor of Alberni. Retiring aldermen went down to defeat in Ladysmith.

Complete results follow:

### LADYSMITH

Ladysmith, Jan. 17.—As the result of the election here yesterday J. D. Olovando and J. King were elected to sit on the 1930 city council. W. A. Cullum and H. Wright were elected as school trustees, the mayor, G. E. Reid, was returned by acclamation. The results follow:

For aldermen: J. D. Olovando, 128, J. King, 80, T. Bryant, 54, W. A. Cullum, 43, D. Davidson, 35, W. Davenport, 23 and W. Steel, 16.

School trustees: W. A. Cullum, 163, H. Wright, 145 and H. Winstanley, 85.

COURTENAY  
Courtenay, Jan. 17.—A close fight for the mayoralty here resulted in the return of J. H. MacIntyre by 126 votes to 106 for Charles Simms.

For aldermen (three to be elected) the poll resulted: P. Booth, 190, Alderman A. B. Hall, 180, Alderman H. E. Wallis, 118, J. A. Hemm, 80 and J. W. Lake, 41.

The poll for school trustees ended: The poll for school trustees ended:

One cup of coffee may LOOK just like another but the quality may be entirely different. So it is with lamps. To be sure of getting the highest quality 'buy Edison Mazda Lamps.

## EDISON MAZDA LAMPS

R. U. Hurford 149, Mrs. Bertha Smith 105 (elected), Trustee G. H. Paddock 99 and Trustee J. Inglis 93.

CUMBERLAND  
Cumberland, Jan. 17.—Mayor Alexander Maxwell was elected by acclamation. Poll for aldermen (three to be elected) resulted: C. J. Parnham 81, P. Munford 74, D. Bannerman 73 and J. J. Weir 53. The first three named were members of the 1929 council.

Sitting aldermen, with another year to serve, are Alderman J. Ledingham, Alderman W. Henderson and Alderman J. Williams.

School trustees: Mrs. F. Partridge and A. McKinnon, acclamation. Duncan, Jan. 17.—All offices were filled by acclamation on Monday.

A vote was taken on a by-law to enable the Consolidated School Board to build, in conjunction with the North Cowichan consolidated area, a new high school in Duncan. In favor, ninety-eight votes; against, seven and seventy-one against. The decision is dependent on the vote of the rural district on Saturday.

NANAIMO  
Nanaimo, B.C., Jan. 17.—Dr. G. A. B. Hall was elected mayor of Nanaimo with a majority of 530 over Frank E. Cunliffe, barrister. The vote was: Hall, 1,618 and Cunliffe 443.

The election of aldermen resulted as follows: "Alderman John Barby 224, F. G. Cavaleky 77, 22, R. Inkster 723, Samuel Drake 535, Alderman Joseph Dixon 530, James Green 533, M. A. E. Pianta 533, F. J. Standard 522, Alderman M. C. Ironside 507, Alderman William Hart 497, W. R. Mitchell 373, Mr. Kerr 285, J. R. McKinnell 271 and J. F. Hickman 250.

Measures, Barby, Cavaleky and Inkster are elected for a two-year term, and Messrs. Drake, Dixon and Green for a one-year term.

Trustees elected were: F. A. Busby, 1,129, J. C. Dakin 788, Mrs. Barnard 808 and James Green 832. Not elected: Mrs. Annie Mercer. Mr. Green is a new member.

The city manager measure was defeated 332 votes for to 744 against. ALBERNI

Alberni, Jan. 17.—J. R. Motion was elected mayor of Alberni yesterday over C. J. Spratt, receiving 69 votes to 63 votes.

For aldermen (three to be elected) the poll stood: W. G. Bigmore 87, E. Frost 84, S. W. Walter 76, L. P. Howe 70 and E. M. White 45. Six spoiled ballots.

For police commissioner (one-year term) the vote stood: G. N. Richardson 95 and E. M. White 52.

The following were elected by acclamation: Alderman, one-year term, Clifford M. Pines. School trustees, two-year term, Margaret Burke and E. E. Frost. Police commissioner, two-year term, S. W. Walter.

PORT ALBERNI  
Port Alberni, Jan. 17.—F. H. Steele was re-elected mayor here in a four-cornered fight. The figures being: Steele 156, J. A. Kendall 116, E. Tomewood 77 and A. T. Sanders 16.

For aldermen (three to be elected) the figures were: E. A. D. Jones 172, R. D. Stone 156, A. T. Turner 158, J. Woodford 125, G. Stoker 101, W. T. Horton 96 and W. E. Holmes 97.

Police commissioner, H. P. Strain, acclamation. School trustees: Mrs. C. Manning, Mrs. L. B. Jones and E. J. Cronk, acclamation.

The by-law to pave Argyle Street failed of the necessary three-fifths majority, receiving 172 for and 173 against.

**YOUR KIDNEYS**  
Guardians of Your Health!

MODERN living conditions tax our human mechanism to the utmost. Probably no part of the body is under more strain than the Kidneys. It is the function of the blood to collect impurities from every part of the body—and it is the important duty of the Kidneys to remove these impurities from the blood. Unless your Kidneys do their work properly you cannot have Health. Tone them up regularly with Dodd's Kidney Pills.

Sarnia Lady Tells of Her Experience  
"I had such a severe backache I could hardly turn in my bed. My mother had told me how wonderful Dodd's Kidney Pills were, so I decided to try them. After taking approximately two boxes I was completely relieved."—Mrs. J. Kirby, 141 Samuel Street, Sarnia, Ontario.

**Dodd's Kidney Pills**  
The Favorite for over Three Generations

If Jewellers sold it~ they would call Sunlight

## 22 Karat Soap

JUST as it is possible to fashion a "gold" ring from part gold and part baser metals... so is it possible to make a soap from part pure soap and part substitutes. The Karat mark on the ring tells you of its purity, but what mark is there on soaps to guarantee their purity?

With Sunlight soap... the "karat" mark of purity is on every bar. It reads: "Guaranteed Pure and to Contain no Adulterant Whatever."

Sunlight is the only laundry soap with a standing money guarantee that it is all pure soap. Being pure, Sunlight dissolves readily—forming plenty of suds very quickly—suds which are lively and lasting. They wash more clothes beautifully clean without harm to fabric or colour... and Sunlight's pure, gentle suds never could roughen your hands.

Because Sunlight is all pure soap, it is the most economical. It makes more suds to wash more clothes.

Lever Brothers Limited, Toronto  
Soap makers by appointment to their Excellencies the Governor-General and Vicecountess Willingdon.

# Chicago Hawks And Ottawa Pull Surprise Victories In N.H.L.

## THE SPORTS MIRROR

AFTER being the surprise of the National Hockey League during the first few weeks of the campaign, the Ottawa Senators, under the management of "Newsy" Lalonde, have been slipping for some time until now they are occupying the third position in the International Section. At the beginning of the season, the Senators were supposed to be the team to watch, but now the shoe is on the other foot.

Early in the season Lalonde was driving his players, and they came through. However, with such a long schedule and with so much traveling, players cannot stand a hard pace all the time. The Senators were bound to crack sooner or later, and it looks like they have split "wide open." The Ottawa team cannot afford to slip, either, as they have to get the best possible support in order to make money.

Ottawa lacks good substitute material, especially on the defense, and if they ever lose "King" Clancy it will be just too bad. Clancy may be handed the lines and boys, but he is a great hockey player and never stops trying. The other Ottawa regulars are good, but they lack scoring ability.

Victoria Capitals city and Island senior "A" basketball champions, got a big surprise Wednesday night when they were put out of the Island Knock-out League at the hands of Duncan. The Caps have not been going so good this season and they will no doubt have quite a struggle on their hands in order to retain their Island championship. The team is without Art Boyd this season, who was one of the main cogs in their line-up last year. Boyd is situated at Jordan River and finds it impossible to get in for the games. One pleasing feature of Wednesday night's game was the fine exhibition put up by young Tommy Forbes, latest addition to the Caps. He rolled up eighteen points, more than half of his team's total. This young player has been the leading scorer on the Capitals so far this season. With the addition of a little weight he should prove one of the best forwards developed here for some time. He has a splendid shooting eye.

Recent cold weather has played havoc with the football and rugby schedules, but it is an ill wind that blows nobody any good, as the low temperature has provided excellent sheets of ice for skating. Practically every little lake and pond, including the lake in Beacon Hill Park, has been the scene for large crowds of skaters during the last week. So far outdoor skating has not been marred by any fatalities, but the skaters must take great caution when skating on such places as Portage Inlet, Beaver Lake and Swan Lake. On Wednesday four skaters at Portage Inlet lost their footing, but suffered no ill effects.

In a marathon race in California, papers running advance articles played up the appearance of Yoshiyuki Suzuki, forty-nine-year-old Japanese runner. Later, during the race, he fell and was exhausted, at the twenty-second mile. Not so bad at that. Few gentlemen of forty-nine can run twenty-two miles.

Nineteen-year-old Harry Chaus, American Indian, won, with another Indian second. A Finn was third. Nineteen has certain advantages over forty-nine in a gruelling marathon, up and down hill. Natives of Jamaica, running eighteen miles uphill, carried baskets of fish to a market remote from the seashore, are much shorter lived than the other Jamaicans. The continual grind wears them out. Apparently they enable the Indian, Finnish and other long-distance runners to stand up under the strain is the fact that they do not make such runs every day, the Jamaicans do, but train at an easier pace, and break training during part of the year. But even the Jamaicans do not run races at forty-nine.

A number of golfers have found certain tournaments to their liking, and have won these greatest with great regularity. The other day Gene Sarazen came in first in the \$5,000 Miami open, making it four times in a row he has won this championship. Leo Diegel won the Canadian open championship four times in the last six years and took the Professional Golfers' Association championship twice in a row. Going back a little farther, Harry Legg won the Trans-Mississippi four times in a row, beginning in 1900. Bobby Jones won four out of the last six amateur championships. Walter Hagen hasn't won a national open championship since 1919, but he has won the British open three times in the last seven years.

**Latzo Scores A Knockout Win In Return to Ring**

Atlantic City, Jan. 17.—Pete Latzo of Margate, former welterweight champion, marked his return to the ring with a lay-off of fifteen months, by knocking out Eddie Clarke, New York negro, in the sixth round of a ten-rounder here last night. Latzo weighed 177 pounds and Clarke scaled 173.

**George Trafton In Knockout Victory**

Chicago, Jan. 17.—George Trafton, 210-pound centre of the Chicago Bear's professional football team, who handed Charles Arthur Shires his only professional ring setback, scored a technical knockout over Rudy Hoffman, Chicago lightweight, in the fourth round at the Jal Alai Fronton Arena last night. Most of the match found the two so tired they were barely able to lift up their gloves.

## Portland Tramples On Cubs Again To Gain First Place

**Bucks Turn in Eighth Straight Victory to Gain Tie With Vancouver for Leadership of Pacific Coast Hockey League; Jimmy Evans Scores Lone Goal for Victoria in 3-1 Score; Two Games To-night With Bucks Playing Seattle, While Cubs Meet Lions.**

Portland, Ore., Jan. 17.—With Portland meeting the Seattle Eskimos at the Puget Sound City and Victoria clashing Vancouver at the Terminal City to-night, indications were that the first place Pacific Coast Ice Hockey League tie between the Bucks and Vancouver would be continued for at least another day.

Portland climbed into a tie with the league-leading Lions by defeating the wandering Victoria Cubs 3-1 at the Coliseum here last night, stealing a march on the idle Vancouver club.

Chances are the Bucks, who ran their string of victories to eight straight by defeating the Cubs, should have no trouble with the demoralized Eskimos, while Vancouver will carry the edge against Victoria.

Last night's game here was the cleanest locally for many months. Portland took an early lead, denting the net twice in the first period, and held the top hand for the remainder of the game. "Peaches" Lyons scored the first Portland counter four minutes after the start. He stole the puck in centre ice, went through the Cub forward line and rifled the rubber past four Victoria players, including the unsuspecting goalie, Robertson. Two minutes later Louis Couper and Earl Armstrong worked a combination to give the Bucks their second chucker. Arny took credit for the goal.

Osmondson saved the wanderers from a whitewashing. In the second period he snaked the rubber out of a melee in front of the Buck net and passed to Evans at the side of the net. Evans completed the score.

Six minutes after the start of the third stanza Couper and Armstrong again worked their combination for Portland's third score. Couper this time took credit for the shot.

**THE LINE-UPS**  
Victoria — Robertson, Kenny, Redpath, Kelly, P. Runge, Evans.  
Portland — Atkinson, McGoldrick, Pratt, Kelly, Couper, Lyons.  
Victoria substitutes — H. Runge, Williamson, Lowe, Osmondson.  
Portland substitutes — Burke, Teel, Huffman, Armstrong.

**SUMMARY**  
First period — 1. Portland, Lyons, 4:31.  
2. Portland, Couper from Armstrong, 2:58. Penalties: Armstrong.  
Second period — 3. Victoria, Evans from Osmondson, 14:42. Penalties: H. Runge and Pratt.  
Third period — 4. Portland, Couper from Armstrong, 4:14. Penalties: Osmondson.

**KEATING FAVORED**  
The senior B game will be played between two of the strongest teams in this division. Keating are slight favorites to come out on top. In the annual championships series between these teams, Keating journeyed to their rivals' own floor and came out on the long end of a 47-34 score. The West Roaders, however, had one victory to their credit over Ralph Mitchell and his boys in City League competition, and will be out to win the game to-night to stay right on the heels of the Y.M.C.A. who are at present leading this division.

The intermediate boys' game will find the two High School teams battling with the A quintette, overwhelming favorites to win. Claude Campbell, who coaches the local High School, has two strong teams this year, and a great game is always provided. Alan Lemarquand will referee all the games.

Probable starting line-ups follow:  
C.P.S. — Davis, Butler, S. Killings, Martin, Viggers, Fagerberg, Woodbridge and Warlock.  
Pedens — White, Wachter, Moore, Chapman, Little and Ross.  
High School A — MacDonald, Macmurchie, A. Chapman, Sheppard, Patrick and Petch.  
High School B — Halkett, McKee, McKechnie, M. Patrick, Hood, Elford and Fox.  
West Road — Claude Sluiter, Parrott, Andrews, C. Sluiter, G. Lannon and M. Lannon.  
Keating — R. Mitchell, Atkinson, Marchant, Sutton, Sydn, D. Atkinson and Emmert.

The starting times follow:  
7:30 — Senior A men, C.P.S. vs. Pedens.  
8:15 — Intermediate A boys, High School A vs. High School B.  
9:00 — Senior B men, Keating vs. West Road.

**FOXYPHANN**  
The poker hounds know a good deal depends on a good deal

**BRADDOCK TO MEET LOMSKI**  
Two Hard Hitting Light Heavyweights Tangle in Feature of Dempsey's Show

Chicago, Jan. 17.—Two of the hardest punches in the ring, James J. Braddock of New Jersey and Leo Lomski, the "Aberdeen Assassin," will match rights and lefts in the ten-round feature of Jack Dempsey's boxing show at the Coliseum to-night.

The winner has been promised one of the big "shots" in one of the several big matches promoter Dempsey is planning for Chicago this winter.

To-night's fight will be the last in the light-heavyweight class for Braddock.

Because of weight difficulties he has decided to enter the heavyweight field.

## Miracles of Sport

## RANGERS TO TANGLE WITH QUEEN'S PARK

Will Be Feature Game in the Opening Round of Scottish Cup Football

Kilmarnock, Cup Holders, Draw Easy Match Against Paisley Acads

Glasgow, Jan. 17.—The Scottish Football Association cup competition gets under way to-morrow when the first round will be played. The feature of the series will be the meeting at Hampden Park here, between Queens Park and Glasgow Rangers, most of the other clubs with a chance to win the cup having drawn minor clubs as their opponents.

Kilmarnock, the cup holders, meet Paisley Acads and this will be a mere practice match for the big first Division clash, Aberdeen have a little tougher opposition in Raith Rovers but should win easily.

The draw follows:  
Motherwell vs. East Stirlingshire.  
Aberdeen vs. Galston.  
Albion Rovers vs. Alloa.  
Dunfermline Stars vs. Partick Thistle.  
St. Bernard's vs. Third Lanark.  
Buckie Thistle vs. Falkirk.  
Stranraer vs. Dundee United.  
Inverness Caledonians vs. Celtic.  
Dundee vs. Morton.  
Bohemia vs. St. Johnstone.  
Midlothian vs. Ayr United.  
Airdrieonians vs. Dumfries.  
Hibernians vs. Leith Amateurs.  
Hamilton Acads vs. Stenhousemuir.  
East Fife vs. Queen of South.  
Clackmannan vs. Brechin City.  
Rangers vs. Raith Rovers.  
Kilmarnock vs. St. Andrew's University.  
St. Cuthbert Wanderers vs. St. Mirren.  
Queens Park vs. Rangers.  
Kilmarnock vs. Paisley Acads.  
Solway Stars vs. Montrose.  
Hearts vs. Clydebank.  
Falkirk Amateurs vs. Leith Athletic.  
Raith Rovers vs. Aberdeen.

**Championship Chess Tournament Will Be Held Here Next Week**

Next week the Capablanca of Victoria will gather in the rooms of Victoria Chess Club, No. 7, Mahon Building, to decide the championship of Victoria in the club's annual tournament. Already several players have signified their intention of taking part in the contests and many interesting matches are expected to take place. The champion will be awarded the Gossage Cup for the year.

The competitions will be open to all players in Victoria, whether they are members of the Chess Club or not. Entries may be sent to W. J. Barker, 2558 Rosebery Avenue, or to the Chess Club.

## Soccer and Rugby Games Called Off For Second Week

All football and rugby matches scheduled for to-morrow have been called off by the presidents of the various leagues, owing to the fact that the frozen grounds are unplayable. This is the second week in succession that all Saturday's outdoor sports have been cancelled. Forced cancellation of the week's games will throw the schedules all out of order. The leagues hope to get back into action next week.

## SKATING IS STILL FINE

Temperature Remains Low With No Prospects of a Thaw Weather Man Reports

Although the biting wind that has swept Victoria and vicinity for the last few days had dropped considerably to-day the temperature was still low and the prospects for continued fine skating on the many inlets and lakes were exceptionally bright. The weather man reported this morning that there was no immediate prospect of a thaw so skating enthusiasts are looking forward with pleasure to a continuance of their favorite sport.

Latest reports from Elk Lake are to the effect that a sheet of ice has formed on the east shore and it is possible that with a few more days, freezing it will be thick enough to skate upon. Last year this lake provided some of the finest skating seen in Victoria for many years.

As far as could be ascertained, no more skaters fell in yesterday, and with the weather remaining cold the ice is now thickening to a stage where there is not much chance of the skaters receiving an unexpected "tucking."

One feature of the outdoor skating, that has proven a surprise to many of the skaters, is the hardness of the ice. Skating at the present time is general all over the island. Reports from Up Island state that all the small lakes are available for this splendid sport.

## \$109.70 PAID BY CLEMENCE ON \$2 TICKET

Long Shots Make Clean Sweep at New Orleans Track; Much Mud at Havana

Gun Royal Wins Feature Event at Opening of Forty-fifth Meet at Miami

New York, Jan. 17.—The track was good at the fair grounds yesterday, but it was no day for the form player. Scoring a win in every race but the sixth, the long shots made a clean sweep of the New Orleans track. Hilary started off with a victory in the opener, paying \$17.30 for a \$2 investment. Then followed the longest shot of the programme, Clemence, scoring in a six furlong claiming event for three years and paying \$109.70 for a \$2 win ticket.

Princess Isabel was more highly considered in the third and paid only \$9 to win. But Star O'Brien went across in the feature, known as the Bienville, and paid \$49.20 to win, the victory of Broad Axe in the fifth was worth \$15.20 for \$2, but Dear Inez beat the outsiders' string in the sixth. She paid \$5.50. Sun Roman closed the card with a \$1.20 triumph.

At Oriental Park, Havana, the pronounced mudders had their day. Tropical storms turned the track into a veritable quagmire. Due to scratches the feature of the day was withdrawn and a dash of five and one-half furlongs substituted. Barclay's John B. Key was an easy winner with Pat Delta second and Okay third. The rain kept the crowd to the smallest of the season.

Miami, Fla., Jan. 17.—With the track a sea of mud, the Miami Jockey Club opened its forty-fifth day of winter racing at Hialeah Park yesterday. An estimated crowd of 5,000 turned out to watch the thoroughbred inaugurated Florida's racing season. A crack field of eight three-year-olds and upward battled over six muddy furlongs for the honor of winning the meet's opening feature. The honor went to M. Storm's Gun Royal, who stepped the sprint distance in 1:13 to lead C. E. Hamilton's Herkitt to the wire by three lengths. George D. Widener's Partisan was third.

In the also ran group was Tutti Prutti, a highly touted South American horse, which finished fifth. The winner paid 7 to 2 to win, 6 to 5 to place and 3 to 5 to show.

**FAVORITES WIN**  
Despite the unfavorable condition of the track the favorites score with regularity, the victory of Pags's Pride 6 to 1 in the fifth race being the only upset of the programme.

The envelope system of betting was used—a system in which the bettor placed his money in an envelope, wrote the bet with the name of the horse on the outside and signed his name or initials. The system was similar to the one used on the New York tracks. All wagers were paid off immediately after the race by the bookmakers.

## Shaughnessy Ends Term As His Club Turns Back Boston

Manager Who Introduced College Methods to Big League Hockey Finishes as Head of Hawks as Club Hands Bruins Second Defeat This Season; Ottawa Gets Break to Score Unexpected Win Over Toronto; Canadiens Find Detroit Easy and Run Through Six Goals; Maroons Beat Americans.

Toronto, Jan. 17.—Tom Shaughnessy, the Notre Dame alumnus who introduced college methods to big league hockey, has ended his term of manager of Chicago Black Hawks but not until he showed the veteran pilots of National League clubs a few things. Shaughnessy rebuilt a tailend club this season and piloted it into second place in the American group.

His resignation, which was necessary because of his law practice, went into effect last night after one of Chicago's most important triumphs. It was quite a feather in his cap to be able to enter the term with the boast that his team was the only one to beat the Boston Bruins twice so far this season. Boston got its second defeat of the year in Chicago December 1 and last night met its Waterloo again in the Windy City, losing its fourth game of the season by a 2-1 count.

**ARMED OF NEW YORK**  
Duke Dutkowsky, big defence man and one of Shaughnessy's recruits, scored the winning goal alone in the third period with a play which almost duplicated the one that put the Hawks in second place last Sunday with a victory over the New York Rangers. This triumph put them three points ahead of New York. The upset business around the National League almost had a perfect time in last night's four games, but, due to a last-minute goal by Nels Stewart, Montreal came out on top. The Canadiens broke a four-game losing streak when they met the New York Americans, last-place team of the Canadian group, through Stewart's goal in the last half-minute of an overtime struggle.

**OTTAWA FULLS SURPRISE**  
The Ottawa Senators pulled a surprise almost as great as Chicago's in defeating the Toronto Maple Leafs, 3-1, giving the Senators a 2-1 lead in the group once more. The victory gave Ottawa a 3-1 margin in four games with its closest rival. The Senators appeared to be going down, and Toronto up before this upset. However, it took two penalties coming together to give the Senators the decision. Joe Lamb and Hec King, almanacs in the second period, while Toronto was only two men short. It was a rough game with seventeen penalties.

The Canadiens of Montreal had no trouble at all holding their place four points behind the Maroons in the Canadian section struggle. The Flying Frenchmen broke a four-game losing streak when they met the Detroit Cougars on an off-night and rolled up a 6-1 score. Only the fine goalkeeping of Bill Beveridge in the early part of the game prevented a larger score.

**LINE-UPS**  
Chicago — Thompson, Hittman, Shore, Barry, Galbraith and Oliver.  
Chicago-Gardiner, Graham, Wentworth, Adams, Ripley and March.  
Boston subs—Welland, Gainer, Clapp, Carson, Owen, Mackay and Hutson.  
Chicago subs—Abel, Dutkowsky, Couper, Arbour, Cook, Gottlieb, Ingram and Burns.

**SUMMARY**  
First period—1. Chicago, March (Adams), 18:30.  
Third period—2. Boston, Gainer, 3:05.  
Third period—3. Chicago, Dutkowsky, 1:20.  
Montreal, Jan. 17.—Montreal Canadiens, 12:30; 1. Maroons, Hines (Sheppard), 1:20; 2. Maroons, Siebert, 1:20.

**SECOND PERIOD—NO SCORE.**  
Third period—3. Maroons, Trotter (Wilcox), 2:31; 4. Americans, Hines (Sheppard), 15:56.  
Overtime—5. Montreal, Stewart (Siebert), 9:21.

**AMERICANS** — Wooters, Simpson, Bridges, Hines, McVeigh and Sheppard. Maroons — Walsh, Dutton, Boucher, Stewart, Smith and Selbert. American subs — Conacher, Reiser, Holmes, Boyd, Masecar, Burnette and Patterson.

**Maroons subs** — Robinson, Trotter, Ward, Northcott, Wilcox, W. J. Phillips and Phillips.

**Officials** — Goodman and Denny.

**McDUFFER**

**NO—WHEN SHE GOT THROUGH COUNTING IT WAS TIME TO SET UP!**

**HORSE RACING**  
Agua Caliente, Jan. 17.—The race programme at Agua Caliente was made up of claiming events, with a two furlong dash for yearlings featuring Millard, the favorite won, with Martha Mae second, and Don Alvarado third. The winner paid \$4.50 and was timed at 23 1-5.

Results follow:  
First race—Five furlongs: Come Along, \$2.20; \$6.20; Dr. Charlie, \$3.60; \$4.20; High Wind, \$4.40; Time, 1:11 2-5.  
Second race—Five and one-half furlongs: Bill Henry, \$10.40; \$3.50; Rhase King, \$3.80; \$3.60; Manos, \$3.40; Time, 1:12.  
Third race—Two furlongs: Millard, \$4.50; \$2.90; \$2.30; Martha Mae, \$3.20; Don Alvarado, \$2.40; Time, 23 1-5.  
Fourth race—Five and one-half furlongs: Tom Nash, \$16.50; \$3.40; \$3.20; Sunny Corn, \$14.50; \$1.10; Ida Fitzpatrick, \$4.30; Time, 1:11 4-5.  
Fifth race—Seven furlongs: Portola, \$7.60; \$3.20; \$2.80; Curriedo, \$5.40; \$3.60; Maid of the Storm, \$3.20; Time, 1:32.  
Sixth race—Mile and one-sixteenth: Marcano, \$6.40; \$3.60; Fair Girl, \$2.40; Barrie Oliver, Time, 1:54 3-5.  
Seventh race—Seven furlongs: Kinder, \$116.60; \$43.90; \$11.20; All Shot, \$8.80; \$4.20; Teate, \$3. Time, 1:52 4-5.

Three special concerts at the Empress Hotel this season. January 23, March 28, April 17.

# Teams Announced For Big Exhibition Badminton Match

## Garrison-Willows Players To Oppose Team of All-stars

Best First Pairs of Teams in Third Division Will Meet Stars From Two First Division Clubs at Armories To-morrow Night; Large Teams Selected; Promote Match in Order to Give Weaker Players Chance of Playing Against Better Material; Match Commences at 7.30 o'clock.

Arrangements have been completed for the representative badminton match which will be played at the Armories to-morrow night, commencing at 7.30 o'clock. Players taking part in the exhibition are the best first pairs, women's and men's, and mixed doubles of each of the clubs which have teams in the Third Division of the Lower Island Badminton League, and a selected team from the Garrison and Willows Clubs, of the First Division.

The match is being promoted by the league in order to give the Third Division players an opportunity to oppose better players and in that manner improve their game. The Garrison and Willows clubs have an enrollment of nearly three hundred players, including the leading stars in the city.

All the various players on the all-star club have been ranked by Hugo Raymond and Ross Hocking, president and secretary of the league respectively. The draw for the match is being made to-day by the secretary.

Following a study of the pairs in the league, the clubs' stars have been ranked in the following order:

### MEN'S DOUBLES

Blake and Erikson, Emmanuel Baptist. McIlraith and Anderson, North Saanich.

Fish and White, Fairfield. Le Queune and Pennington, Langford Lehigh.

Paterson and Cox, Graham-Palmer. Poynts and Huxtable, Christ Church.

Witter and Harper, Y.M.C.A. Bagley and Watson, Saanichton Athletic Association.

WOMEN'S DOUBLES

Iris Goddard and Mrs. McIlraith, North Saanich. Miss Boyer and Mrs. Erikson, Emmanuel Baptist.

Mrs. White and Miss Taylor, Fairfield. Mrs. Bayles and Mrs. Le Queune, Misses M. and E. Stubbs, Graham-Palmer.

You'll be delightfully warm and comfortable on the 45-minute trip

## ARTIFICIAL LIGHTING BEST FOR BADMINTON

By JACK PURCELL

Canadian Singles Badminton Champion

Practically all the new badminton clubs which have been constructed this year have no skylight over the courts and artificial lighting is being used exclusively. I think this idea is very sound for there is so much aerial play in badminton that the more daylight is eliminated from the courts the better the visibility will be.

Strong electric lights properly placed and shaded provide the best light for playing and the most desirable color for the background. White lines are easier for the player to keep in sight on the other side of the net when he is watching the bird for the white stands out very clearly in the dark surroundings. On the other hand, most of the bird is white in color and close to decisions as to whether a bird is "in" or "out" are easier to make with the white bird against the black line. Taking everything into consideration and looking at the matter from the point of stroke production, which after all is the most important, I think white lines are the better even though they need to be "kept up" more than those of any other color.

There are a great many styles of artificial lighting which have been tried out and found successful, and any club contemplating changing its lighting system or installing a new system can hardly go wrong copying any one of the various styles in use at any of the leading clubs.

By SOL METZGER

California has the ball out-of-bounds on the side-line near the scoring end of the field. It's a tough game. Stanford just has to be whipped. Whereupon Coach "Nix" Price of the Golden Bears digs deep into his bag of tricks and his team comes through with a basket from the floor.

Just two Californians face the team-mate out-of-bounds with the ball. They are No. 1 and No. 2. As No. 1 drives toward the Stanford player, B, guarding No. 3, No. 2 starts for the basket, then swerves in to take a short pass from No. 3. The trick is in the quick action of No. 3.

As he passes he rushes on a dead line for the basket. You see his pass momentarily occupies the attention of his immediate opponent, B. But before B gets under way, No. 3 has a nice lead on him. He turns and takes a quick overhead pass from No. 2, a pass No. 2 also makes in a flash after receiving the ball. Then No. 3 dribbles in for a one-hand push shot for a basket. To-morrow—a simple out-of-bounds play that is usually effective. (Copyright, 1929, Publishers Syndicate)

## J. O. CAMERON HEADS CLUB

Re-elected President of Uplands Golf Club; Other Officers Elected

J. O. Cameron was re-elected president of the Uplands Golf Club at the first meeting of the new committee held last night. D. A. Macdonald was also re-elected vice-president. The majority of last year's officers were all re-elected.

The complete list of new officials follows: President, J. O. Cameron; vice-president, D. A. Macdonald; R. L. Challoner, captain, re-elected; F. C. Dillabough, vice-captain, re-elected; chairman of green committee, W. G. Leth; chairman of house and entertainment committee, F. C. Dillabough; chairman of match committee, R. L. Challoner; chairman of finance committee, D. A. Macdonald.

The library of the Uplands Golf Club contains more than 250,000 books and 34,000 manuscripts. The building of the Uplands was started about 450 years ago. Almost every Pope since then has made additions to it.

## BOWLING YOUTH TO TACKLE GENARO

Colonist Night Owls, leaders of the City Bowling League, added another victory to their credit last night at the Arcade Alleys, winning two out of the three games with the Jokers. The Owls copped the first two games with the Jokers taking the last. Bill Norris of the Colonist, carried off the scoring honors in both the individual and aggregate classes with scores of 200 and 524, respectively.

In the Fifteen League fixture last night the C.N.R. won two out of three from the Colonist Compos. The railwaymen won the first and last games by wide margins, and in the second were only beaten out by three pins. Charlie Chislet of the Compos was high individual and aggregate scorers with totals of 249 and 643.

Complete scores follow:

Colonist Night Owls

J. Skellern 146 194 137-472

W. Norris 151 135 138-424

W. Youhill 142 182 178-499

Paris, Jan. 17.—Yvon Trevidic, an eighteen-year-old youth from Brittany, is probably the youngest boxer in the history of the prize ring ever to get a crack at a title.

Trevidic, a red-headed fiery flyweight, has scored nineteen victories out of twenty fights, eighteen of them by knockouts and one on a decision. The twentieth fight was a draw.

Genaro, who has been suffering from a boil under his right armpit, had to ask for a postponement after an operation as the battle originally was scheduled for January 11. He does not yet appear in the pink of condition, but nevertheless is favored to defeat the youngster at odds of 8 to 5.

Genaro's right to the world's flyweight championship is in dispute in the U.S. The little New Yorker holds the National Boxing Association's 112-pound championship, but the New York State Athletic Commission does not recognize any titleholder in the division.

Yvon Trevidic, Eighteen, Probably Youngest Boxer to Ever Fight For Title

Flyweight Champ, Although Not in Best of Condition, Favored to Win

Paris, Jan. 17.—Yvon Trevidic, an eighteen-year-old youth from Brittany, is probably the youngest boxer in the history of the prize ring ever to get a crack at a title.

Trevidic, a red-headed fiery flyweight, has scored nineteen victories out of twenty fights, eighteen of them by knockouts and one on a decision. The twentieth fight was a draw.

Genaro, who has been suffering from a boil under his right armpit, had to ask for a postponement after an operation as the battle originally was scheduled for January 11. He does not yet appear in the pink of condition, but nevertheless is favored to defeat the youngster at odds of 8 to 5.

## REEVE HAYWARD GIVES RESUME OF YEAR'S WORK

Oak Bay Municipality Growing Steadily, Ratepayers Told at Meeting

Council Heartily Thanked By Large Number of People For Work During Year

Affairs of Oak Bay are in a satisfactory condition at the present time and the municipality is steadily forging ahead in building and in population, Reeve Hayward and members of the Municipal Council told a well-attended meeting of the ratepayers in the Municipal Hall last evening. The last year was the biggest the municipality ever went through, the report showed.

Reeve Hayward thanked the members of the council for the work they had done during 1929, particularly in the last three months, when there has been a large number of meetings at which every member of the council was present. The returning of the nerve and council by acclamation, meant, the reeve said, either a regrettable lack of interest in municipal affairs or great confidence in last year's council. He and the council preferred to believe the latter.

"We kept well within our estimates during the last year," Reeve Hayward said, "while the revenue was slightly above what we expected. This year's levies, will see a complete protection of all local improvement by-law, which fact is due to the excellent condition of the sinking funds at the present time."

"Our dealings with other municipalities have been of a very pleasant character," Mr. Hayward said. "We had most of our dealing with Victoria, and had taken up with the city the boundary line of Foul Bay Road near Foul Bay beach, and also entered into an agreement with the city regarding electrical inspection, an agreement which has been found very satisfactory to both parties."

Councillor A. D. Crease, chairman of the finance committee spoke briefly of finances in the municipality during the last year. The books were in good order, he said, and showed the municipality to be steadily progressing. The assessed value of land in the municipality at the present time is about \$10,000,000. Councillor Crease told the gathering, Building permits to the number of 219, costing \$676,000, had been taken out during the year, and of these ninety-one, costing \$607,000, had been for private dwellings, showing to what an extent Oak Bay is looked upon as a residential district. The total levy for all taxes during the year was \$177,000, compared to \$181,000 ten years ago. The total revenue, Mr. Crease said, was \$358,000, of which \$17,000 had been a Government grant for the new high school. The estimated revenue had been \$340,000, so that the council was well ahead in this respect.

Councillor Mearns, chairman of the public works committee, reported that the roadway and improvements that had been carried out during the last year. There had been 5,500 feet of roads laid down, he said, thirteen street lights installed, making a total of 290 lights in the municipality at the present time, outside the Uplands, and nineteen new hydrants put in. It was the intention of the council to recondition the Oak Bay park for playing purposes during the year, but owing to an extremely dry spring and summer this was found impossible. As soon as there are some good rains the field will be ploughed and harrowed and put in use.

#### SCHOOLS INCREASE

E. M. McCannan, chairman of the School Board, and a candidate for school trustee at the polls to-morrow, told of the work of the board during 1929. There are 657 pupils attending the grade schools and the high school in Oak Bay at the present time, Mr. McCannan said, compared to 806 in January last year. Of these 250 are in attendance at the high school, 842 at Monterey and 265 at Willows.

The estimated expenditures of the School Board for the year were \$91,494, and the expenditures, \$87,012, so that there is a balance of \$4,471 to be carried forward to 1930. High school pupils are taxed \$150 per year and these fees in 1929 brought in \$2,500. The cost to the municipality of each grade school pupil was \$53, and of each high school pupil \$125, but with the fee only \$114.

Mr. McCannan spoke of the new high school. It was hoped to build it of brick, but costs had gone up, and rather than lose the opportunity of building the school the board went ahead and ordered it erected of wood, realizing the great need of the municipality in this respect. It was not a fire-trap, he said, and had the consent of the fire marshal.

Trustee P. E. Curtis and Frank M. Sherry, a candidate for the school board, also spoke at the meeting. At the close Fred M. McGregor moved a hearty vote of thanks to the reeve and council for their untiring work on behalf of the residents of Oak Bay. This was seconded by Alfred Carmichael.

Three special convicts at the Empress Hotel this season, January 23, March 28, April 17.

# Electors of Oak Bay REMEMBER The Blue Line Said YES! Not No!

The B.C. Electric are circularizing Oak Bay electors on the subject of Saturday's Referendum, when the electors will be asked to vote for or against authorizing the Council to give a franchise to The Veterans' Sightseeing and Transportation Company (The Blue Line) to operate motor busses in the Municipality without interference from the B.C. Electric, or other companies who may be induced to attempt to run them off the road.

The suggestion contained in the circular, that the Blue Line is not a reliable company, is a last-minute election dodge, which we, fortunately, have time to counteract. The Blue Line is operated by a local company of good repute, capable of providing an efficient and up-to-date service. And standing behind the ratepayers, to protect their interests, is a legal document that contains cast-iron provisions which the Blue Line must live up to.

Before Blue Line busses were permitted to operate, and before the Council gave any consideration to an application for a franchise, the standing of the Blue Line and their ability to provide the best procurable service was inquired into. The Council are satisfied, and they are responsible to the electors, not the B.C. Electric.

The B.C. Electric are biased. Months ago they threatened to "crush" the Blue Line. Their hands are the hands of the B.C. Electric, but their voice is the voice of the "crushers."

If the B.C. Electric discontinue their street car service, as they threaten, the Blue Line will operate a ten-minute schedule. This is provided for in the franchise. The electors have no reason to fear that threat as the Blue Line is prepared to provide a service far superior to a transportation method that has had its day, and which cannot go to the people who need service.

With no topheavy capitalization, the Blue Line can give low fares. Because the B.C. Electric is the biggest monopoly in British Columbia they say don't give proper protection to the Blue Line, we want the concession NOW THE BLUE LINE HAVE PROVED THE VALUE OF THE BUSINESS

IF YOU DESIRE TRANSPORTATION TO THE POLL ON SATURDAY, PLEASE PHONE 8800

# The Blue Line

## ELECTORS OF OAK BAY

Notwithstanding anything said to the contrary the Blue Line have given a definite guarantee to the Oak Bay Council that they will not sell out to the B.C. Electric under any conditions.

## Oak Bay Municipality

### A REFERENDUM

### BUS FRANCHISE

On a Proposed

Will be held on Saturday next, at the Municipal Hall, Oak Bay, from 8 a.m. to 8 p.m., as per advertisement in today's Colonist.

The world's largest lock will shortly be opened for use on the ship canal between Ystad, Sweden, and Amsterdam. It is 4,812 feet long by 164 feet wide. This is larger than the Panama Canal locks, which are 1,000 feet in length and 110 feet in width.

Gigantic maps, showing every street, alley and court in the country, are being prepared for use during the next census of England and Wales in 1931.

Scotland and Belgium are the two European countries in which the accordion, which celebrates its centenary this year, are most popular.

There are approximately 30,000 silver foxes in Norway.

The Editor reserves the right to accept or reject of articles is a matter entirely in the discretion of the Editor. He assumes no responsibility for the preservation or return to the writers of communications submitted to the Editor.

## THE OAK BAY BUS ISSUE

To the Editor:—With reference to the forthcoming referendum on the question of a franchise for the Blue Line in Oak Bay Municipality, it would appear from this morning's press report of last night's meeting that some persons are under the impression the Oak Bay Council are unanimously in favor of such a franchise being granted. The fact is that, if the taxpayers with the municipality to grant a franchise to the Blue Line, the council are unanimously in favor of the agreement which has been prepared, as being the best possible in the interests of the municipality. But it should be clearly understood that on the main question of whether a franchise should be granted or not, the individual members of the council are free to exercise their own judgment.

HEW PATTERSON, Councillor.

## ANOTHER BUS SUGGESTION

To the Editor:—After hearing several speakers at the Municipal Hall on Thursday evening, I have come to the conclusion that if you vote for the bus by-law, Oak Bay will be giving away one of its best assets. Rather than grant a franchise to the "Blue Line," why cannot we ourselves give the service and the municipality reap the benefit, thereby reducing taxes. The "Blue Line" would not be so anxious to operate such a service if they were not certain of making a profit. There is no doubt in my mind that the "Blue Line" will clean up \$20,000 a year or a profit of \$140,000 in the seven years. Surely this would be acceptable to the treasury of Oak Bay. The municipality has a large building on Milton Street, which would make a good garage.

I therefore ask all taxpayers to vote against this referendum and have the council submit another immediately for municipality-owned buses.

W. E. FERRIS, Chairman.

## GORGE VALE GOLF CLUB BY-LAW

To the Editor:—May I crave space in your paper to answer the letter of the "Interested" which appeared in your issue of the 16th, and may I note in passing that the gentleman's Nom. de Plume is a misnomer, as he was not sufficiently interested to attend the public meeting of ratepayers held in the Municipal Hall last night, when the above by-law was fully explained, receiving the support of the every councillor, who were returned by acclamation, as well as the support of the ratepayers attending the meeting and of the Board of Trade of Esquimalt.

There is no desire on behalf of my company or the council of Esquimalt to put over this by-law secretly, the more publicity it has the better we are pleased, as it only requires a full knowledge of the facts to secure the unanimous support of the ratepayers.

The letter of "Interested" correctly states that the agreement with the council fixes the assessment of the land with improvements at \$60,500.00, the \$500 separately assessed on improvements being a legal necessity and not indicating in any way their value.

Now to correct a few mistakes. Firstly—the present assessment of the land, which was previously assessed on a basis with other property of the Hudson's Bay Company, is more than double the previous assessment. If assessed separately, and consequently the taxes paid in respect of the property are more than double and amount roughly to \$1,700.00 per year. Secondly—not only will the Golf Club not increase the amount of taxes payable by the ratepayers, but owing to the largely increased amount, payable by the subdivision of the surrounding property, for taxes it will lower the amount payable by other taxpayers. Thirdly—a golf course does not cater in these days to the pampered classes, but provides regular employment for from fifteen to twenty-five persons, to say nothing of casual employment of caddies who will be drawn principally from Esquimalt.

If the advent of the golf course increases the assessed value of the writer's property, assuming he is a taxpayer, this can only mean that the golf course has increased the value of

his property, is that a hardship? Not only that, but the golf course will bring new residents and ratepayers into the district and will boost Esquimalt from one end of the American continent to the other.

I could enlarge still further on the advantages to Esquimalt from the golf club, but feel that I have said enough to convince any fair-minded ratepayer, and trespass sufficiently on your valuable space.

W. SHEWELL MORRIS, Secy.-Manager.

Victoria, B.C., January 17, 1930.

## RE THE BUS QUESTION

To the Editor:—Now that the bus question in Oak Bay has reached the acute stage it might be as well for the public to consider some facts before granting "exclusive" rights to any one company. The promises being made now are far too good to be true, as the public only too well know, are being fulfilled after the objects are acquired. This big equal might would crush right—that the Blue Line are putting up sounds very good, but aren't this been their policy?

The jitters deal, with no offer to compensate. Their cut rates for visiting tourists, and ridiculous taxi fares forced many "real" veterans to the wall. The recent advertisement of their drivers being 100 per cent union, if true, is a last minute move. They couldn't send a representative to the investigation that was held by the Government to inquire into taxi men's wages. There should also be an understanding that a proper bus service be run in the summer time, and not that the good buses be run for "our" wages, but for the general public.

I don't want to champion the B.C.E.R. There is no question that their service has been genuine, but now they are being pushed a sufficient story may be told. By all means give them each equal rights—not exclusive—the public has everything to gain, nothing to lose. All the queuing that is being done is because they think they are going to be hurt. There isn't any

Packed in sections, a church, a museum and a shop have been sent by steamer from England to a place in Greenland, within the Arctic Circle. The church, when erected, will be the most northerly in the world.

The explosive force of gasoline, properly mixed with air and compressed, is fourteen times greater than dynamite.

## SAANICH OFFICE SEEKERS HAVE BIG AUDIENCES

Residents of Wards Two and Seven Turn Out in Strong Force

Tillicum School Meeting Is Marked By Much Questioning

A typical Ward Seven audience last night at Tillicum School gave candidates for municipal office orderly hearings, followed by many questions. Reeves William Crouch and Frank V. Hobbs explained policies which they would adopt if elected to the reeveship. H. Campion had a difficult task as chairman, most of the questions being embodied in speeches from the floor. He was tendered a vote of thanks for his labors.

"My purpose, and that of the School Boards which have served under me, has been to provide Saanich children with good educational service," said Mr. Hobbs, when asked for support as reeve. "We have tried to be fair to all, that is the reason why we have proposed to construct a high school at Keating. We have sought a means to give the services you already enjoy. If you do not like our proposals you have your remedy at the polls. If you do turn down the by-law, I expect to you not to let your disapproval of the measures prejudice your opinion of those who prepared the by-law. I am the only member of the 1929 Board now seeking the your franchise. Do not permit any opposition you may feel to the school by-laws to affect your consideration of my qualifications and candidature for the reeveship."

"I am proud of my service as a school trustee, in view of the enlarged school grounds we have provided."

"That brings up the question of municipal revenue. Last year Ward Six got \$9,000 more expended than did Ward Seven. Maybe in other years it will be different. All the wards should contribute equally and share alike in revenue."

## SAANICH POLICE

To the Editor:—I see in this morning's Colonist that Mr. Cawsey made several statements at the Tillicum meeting about me which are not true. I have never said at any time that I was too busy to attend to police affairs. As far as the police hall is concerned, the affair has nothing to do with the commission. The hall is run by the Chief and his men, and the money spent to the best advantage possible to aid the poor as the enclosed shows.

Packed in sections, a church, a museum and a shop have been sent by steamer from England to a place in Greenland, within the Arctic Circle. The church, when erected, will be the most northerly in the world.

The explosive force of gasoline, properly mixed with air and compressed, is fourteen times greater than dynamite.

Health Centre was giving Saanich a valuable service, especially in supervision of pre-school age children. The Reeves told of bond issues redeemed and to be paid off shortly, described the modernization of the road maintenance machinery and praised the efficiency of the police department.

Health Centre was giving Saanich a valuable service, especially in supervision of pre-school age children. The Reeves told of bond issues redeemed and to be paid off shortly, described the modernization of the road maintenance machinery and praised the efficiency of the police department.

Appealing for re-election, Reeve Crouch said he had been told he was leaving a dissatisfied people. His opinion was that ninety per cent of the voters had been well pleased with his administration, and he called attention to widespread criticism by ratepayers of the school by-laws sponsored by his opponent.

Reeve Crouch discussed finance economies he had attained for Saanich, and told of the probability of much new roadwork being done as a result of abolition of the debt levy.

"I would not favor a reduction in the mill rate; our taxes are fairly low now. I would not favor increase in the tax on improvements, it would give no more roadwork, only being to the advantage of owners of large acreage and wild lands," he said, concluding with a brief appeal for re-election. Much applause marked adoption by the meeting of a vote of thanks to the Reeve.

POLICE COMMISSION  
Frederick Cawsey, candidate for the Police Commission, spoke briefly. He urged relief of police from tax collecting duty. Reeve Crouch asked

why tax collections increased \$2,000 the year after the candidate ceased service with Saanich, and was told: "Illness by officers had been a deterrent to collections. I was not educated to be a collector of taxes, but I do know police work," Mr. Cawsey explained.

## TOLMIE MEETING

Ward Two voters turned out in strong force last night at Tolmie School to hear municipal issues discussed. Reeve Crouch and Mr. Hobbs appealed for support for the reeveship, on lines similar to those taken at Tillicum School, and Mr. Cawsey addressed the voters as a police commission candidate.

Councillor J. M. Patterson reported as councillor for the ward. He denied the council had blocked the programme of the school board, asserting that support was tendered for a school costing as high as \$150,000, provided the matter was deferred until the occasion issue was cleared up. Garbage collection was practical in Ward Two, and would cost only \$1.50 per residence annually, he reported.

WALES AND LIGHTS  
Dennis Hoare, candidate for the seat on the council being vacated by Mr. Patterson, considered provision of sidewalks and street lights to be the major matters of interest to Ward Two. Ratepayers should be paid for from revenue, he considered, citing the final costs to the ratepayers of works constructed by debenture issues. Mr. Hoare believed that residents would willingly pay higher taxes if they were provided with improvements, and he could see no way to give a garbage service unless the taxes were increased.

MUST GO AHEAD  
P. J. Crowhurst, also a candidate for the Ward Two councillorship, said he had enjoyed several years' experience in municipal matters and had the desire to devote to the office. He considered Saanich should prepare to take advantage of the advertising of Greater Victoria now being carried on by the city and the transportation companies, which would certainly bring a large increase in population to Saanich.

The attractions of scenery and climate were offered, to prospective settlers by the lack of sanitation and the lighting system, which was perfect when there was a full moon.

Mr. Crowhurst pointed out that Saanich must either advance or go backward, and progress costs money. He urged the school situation, remarking that many persons in the large audience were making sacrifices for their children, who should be given a good sound education.

"Who knows but that a future premier of Canada is to-day attending our Saanich High School? Education is necessary, I am foursquare for it," he concluded, complimenting the school board on its policy and the method taken to explain the by-laws to the people.

Royal Financial  
Buys Westminster  
Paper Plant Bonds

Vancouver, Jan. 17.—Contract has been closed with the Royal Financial Corporation for the purchase from the Westminster Paper Company Limited of \$500,000.00 5% per cent twenty-year bonds with interest guaranteed by the city of New Westminster. As soon as legal opinion and other arrangements have been completed, the bonds should be offered for public subscription.

The Royal Financial Corporation has also agreed to distribute a certain block of common stock of the Westminster Paper Company Limited, in conjunction with a number of brokers in Vancouver, New Westminster and Victoria. The common stock of the Westminster Paper Mills Company has paid handsome dividends since the inception of the company and it is anticipated that this stock will be picked up very rapidly.

The company is now constructing its new plant which, when completed, will cost in the neighborhood of \$700,000 and is expected to be in production by about the first of April. The plant when completed, will be one of the most modern plants of its kind in the Dominion.

The world's first long tunnel was built by the Roman Emperor Claudius nearly 2,000 years ago and was about four miles long. It took 30,000 men eleven years to do it. To-day 400 men with modern devices, would be able to do it in six months.

A walk of three-quarters of a mile can be enjoyed around the promenade decks of the new Orient liner, the Orontes. There is also an open-air swimming bath on board.

What is claimed to be the deepest electric furnace in the world has been put into operation in a South African mine. This furnace, which is being worked at a depth of 6,300 feet, has been installed for the heating of carbon drill steel.

Bananas are now ranking with milk and cereals as food for infants, according to the Canadian Medical Association. For infants of from three to six months, the banana should be well mashed, and then beaten up and mixed with milk.

To the Electors of Esquimalt  
Gorge Vale Golf Club Limited By-law. Your Vote and Support for this By-law. The Gorge Vale Golf Club has been established with improvements at the sum of \$60,500.00 for a period of 15 years, is sold on the following grounds:

(1) The property is assessed at a considerably enhanced figure over previous assessments and produces a much larger amount in taxes, more than double.

(2) The Golf Course will enhance the value of the surrounding property and make it marketable by the present owners as a profit.

(3) The Subdivision by the owners of the immediate surrounding property will increase the assessed value and the increased rates they pay will relieve the other ratepayers.

(4) The Golf Course will give regular employment to 15 to 25 people and casual employment to 50 or more as caddies.

(5) The Golf Course will bring thousands of visitors in close touch with Esquimalt, who could otherwise never see or appreciate its beauties.

(6) The Golf Course will bring new residents and ratepayers into Esquimalt which will help develop present ratepayers.

(7) The Golf Club will help you in several ways to the By-law passed before you in any way.

GORGE VALE GOLF CLUB LIMITED  
For W. Shevell Morris, Secretary-Manager.

## YOUR VOTE AND INFLUENCE IS RESPECTFULLY ASKED FOR

REEVE WILLIAM CROUCH  
For Another Term As Reeve

WHY?

BECAUSE the Municipality under his leadership was never in a better position, or things looked so promising. His financial position is second to none in the Province.

BECAUSE he can and has given the whole of his time and attention to the Municipality and the duties of Reeve.

BECAUSE the only thing his opponents can say is: "It is time for a change." "Increase the tax on improvements?" "Or because I have not been able to see eye to eye with them on school matters?"

Leave the Reeveship in the present Reeve's hands and again elect—

REEVE WM. CROUCH  
For Another Term.  
Thank You!

COMMITTEE ROOM: 1263 Broad Street (By The Colonist)  
Phone 3089 or 8160Y  
Polling Day, Saturday, 8 a.m. to 8 p.m.

**NEWS IN BRIEF**

Decision of the appointment of P. M. Rattenbury as Justice of the Peace is announced in this week's issue of The B.C. Gazette.

Owing to the cold weather, the meeting of the Men's Club of the First United Church, which was to have been held to-night, has been postponed.

The B.C. Provincial Rabbit Breeders' Association show on Monday, Tuesday and Wednesday at the Willows Park, has been postponed owing to cold weather. The new dates will be announced later.

Local artists and a company of singers and players from Courtenay district appear on a varied programme to be given at the Memorial Hall to-night, beginning at 8 o'clock, in aid of the erection of a parish hall at Courtenay. Several amusing sketches and a number of songs and other musical items are included in the programme.

**ON SHOOTING**

Coroner's Jury to Inquire Into Fatal Accident to William Whitehouse

An inquest over the body of William Whitehouse, 74 San Juan Avenue, who was fatally injured by a shot from his own .22 rifle yesterday afternoon, will be held to-morrow morning at 10 o'clock in the B.C. Funeral Chapel.

According to the report of the mishap made to the police, Mr. Whitehouse was shooting birds off the Douglas water front at the end of Douglas Street when the shooting occurred. He was dropping his rifle, in two seconds, into a sack, when it fell, struck a rock on which the sack rested. One bullet had been left in the gun and this penetrated his hip, just below the knee and continued into the brain. He died within a few minutes. The body was taken to the police station where it was pronounced dead by Dr. R. Felton, city health officer.

Besides his parents, the late Mr. Whitehouse was survived by the widow. They were married just a month ago.

**NAVY LEAGUE TO**

Three Feature Addresses to Be Given and Officers Elected

The annual general meeting of the Victoria branch of the Navy League of Canada will be held on Monday, February 24, at 8 p.m., in the ball room of the Empress Hotel. All nominations for officers and committees must be made with the secretary at the Navy League Office, Bank of Montreal Chambers, not later than Monday, February 17. His Honor the Lieutenant-Governor, Premier Tolmie and Mayor Anson will address the meeting. Upon the conclusion of business and election of officers a short programme of entertainment will be given.

**WHEAT GAINS**

**AFTER LOSSES**

Winnipeg, Jan. 17.—Panic rode recklessly through the wheat pit here to-day, pushing prices up four cents within a few minutes. The market's recovery came after two days of price losses, but it was wiped out when buyers rallied to the rescue.

At the close prices were virtually unchanged from yesterday's close. Both the May and July futures finished fractionally ahead of the previous close, May at \$2.25 a bushel, July showing a rise of from  $\frac{1}{2}$  to  $\frac{3}{4}$  cent, to \$1.34  $\frac{1}{2}$  a bushel. The only loss for the day was "listed in October at \$1.31  $\frac{1}{2}$ , which was unchanged to  $\frac{1}{4}$  cent in arrears.

Stop-loss orders uncovered by yesterday's pronounced recession were encountered in the early trading to-day, and the first two minutes brought drops of as much as four cents. In less than half an hour, however, a wave of buying recovered three cents of the loss and the market struggled through regular trading to close at a level even slightly higher than it had started.

**DEATH FOUND**

**ACCIDENTAL**

Jury Inquires Into Aged Cyclist Crash With Sedan

A verdict of accidental death was returned by a jury this morning following the inquest on John Rothwell, sixty-three-year-old cyclist, who died as the result of a fractured skull sustained when he was struck by a Dodge sedan driven by Captain E. M. McBryne on Pandora Avenue, near Terrace Avenue, on the evening of January 8.

Evidence given by witnesses was to the effect that Captain McBryne was driving along the street at a speed not exceeding fifteen miles an hour, when the collision occurred. Every care was given to the cyclist after the accident. Captain McBryne said he was proceeding through the Dardanelles in second gear and had just changed to first when he noticed a man pushing a bicycle across the curb in front of him. He tried to avoid him by turning into the middle of the street, but struck him with the right fender. After stopping three feet from the spot on which he struck the deceased, he, with the assistance of some men, placed him in the back of his car and drove him to the hospital. Mr. Rothwell was pushing the bicycle with himself on the traffic side of the street.

J. B. Clearhouse appeared for Captain McBryne.

Other witnesses called to the stand were: Dr. T. McPherson, Constable D. McPherson, Miss Ethel Bruce and Robert Harvey.

**SASKATCHEWAN'S FREIGHT**

Ottawa, Jan. 17.—Argument for the province of Saskatchewan in the western railway freight rate appeal was continued by W. H. McEwen, K.C., this morning. Mr. McEwen devoted his attention to a discussion of the terminal rates, the structure of which is complained of by Saskatchewan. His complaint was that the farther west from Winnipeg, the less benefit was received under the present system. The rule applied to all merchandise moving from east Canada to points in Saskatchewan on class rates or on commodity rates based on class rates.

The population of Saskatchewan has not increased since 1900, 900,000. Mr. McEwen pointed out, and Winnipeg was no longer the distributing centre. The appeal is being heard by the Cabinet.

**TRIAL PROCEEDS**

John H. Forrest Denies Charge in Pump Ejector Trial Is Proceeding To-day Before Judge Lampman

John H. Forrest of Vancouver faced a speedy trial before Judge Lampman in the County (criminal) Court this morning, when evidence opened for the prosecution. The accused is charged with obtaining \$100 from John W. Goss by false pretence and has pleaded not guilty to the charge.

Through the advice of Henry C. Hall, K.C., his counsel, the defendant affirmed to-day the admission made by counsel at the preliminary hearing recently, when to avert the taking of commission evidence at Ottawa, he had admitted the defence admitted no patent rights were held by the defendant at the time of his initial transaction with Mr. Goss.

Examined by W. C. Moresby, K.C., Crown counsel, John Williams Goss testified that he had been approached by T. A. K. Turner in investment in the share capital of the Victoria Ejector Syndicate, an organization which was to develop the use of a device by which large quantities of water could be expelled by a new principle in pumping.

The accused was introduced to him later at his own request, continued Mr. Goss, and he invested \$100 for shares in the syndicate. He took this course, said witness, on the representation by the accused that he held patent rights in Canada and the United States for the device, which was to be developed in a commercial way. The meeting with the accused had taken place in March, 1928, stated Mr. Goss.

Hearing proceeds with the calling of evidence. The prosecution this morning retraced ground covered at the preliminary investigation before Magistrate J. in the police court.

**Blue Line Will**

**Not Sell Out If**

**It Gets Franchise**

Statements to the effect that the Blue Line contemplate selling out to the B.C. Electric Railway if it secures a franchise, is repudiated by Sidney Langster, president of the Blue Line, who states that a positive guarantee has been given to the Oak Bay council, that under no conditions will the Blue Line sell out to the B.C. Electric.

**AGED PIONEER**

**RESIDENT DIES**

After a residence in Victoria of fifty-five years, Alexander Primrose, a pioneer of this city, passed away yesterday at the home of his niece, Mrs. P. J. Holland, 1315 Camosun Street, at the advanced age of ninety-one years. The late Mr. Primrose was born in Fifehire, Scotland, and was for a number of years engaged in seafaring between London and Calcutta before coming to Canada.

He is survived by two nieces, including Mrs. Holland, with whom he had resided for the last twenty-three years, and three nephews.

The remains are being deposited at Haywards' B.C. Funeral Chapel, from where the funeral will take place on Saturday afternoon at 2 o'clock. Interment will be in Ross Bay Cemetery.

Inability of Willows Exhibition to Provide Quarters Now Certain

Sidney Board of Trade Asks Support For Breakwater Petition

Construction of a breakwater at Sidney being sought from the Federal Government, by the Sidney Board of Trade, would possibly be followed by a year-around steamer service between Sidney and mainland points being operated by the Puget Sound Navigation Company, 123 directors of the Victoria Chamber of Commerce were this afternoon informed.

The Sidney Board of Trade sought the support of the Victoria Chamber of Commerce for a petition to the Federal Government, the cost of the breakwater being stated at about \$300,000. In the unavoidable absence of Capt. J. W. Troup, chairman of the transportation committee, discussion of the matter was deferred to a later meeting, when the Sidney board will be invited to attend and personally explain the proposals.

James Parfitt recommended that the Home Products Fair be revived this spring, in view of the inability of the Willows fair authorities to provide accommodation this year. The suggestion was referred to the home products committee for report.

W. H. Mearns, secretary of the B.C. Agricultural Association, explained the plans for the suggested reconstruction of the Willows fair buildings and grounds, stating that the scheme was expected to be financed without trouble.

The following were placed in nomination for senior membership: M. B. Jackson, K.C., Clarke Printing Company Limited, Dr. Walter Bapty, Fairview Cedar Timber Company Limited, and A. M. Aitken, for junior membership, Eugene Giroux.

P. B. Fowler, president, stated that 180 Boards of Trade and Chambers of Commerce were now identified with the Canadian Chamber of Commerce.

An application for endorsement being received from the "On to the Peace River Association," Mr. Fowler was asked to collect further information as to the organization, which is sponsored by Charles E. Tisdall of Vancouver.

George J. Warren read telegrams sent to E. W. Beatty, K.C., president of the C.P.R., and Sir Henry Thornton, president of the C.M.R., congratulating them on launching the first of the two squadrons of new vessels to be operated by the companies on this coast this year.

Vancouver Stock Committee Rules Against Suspension During Alberta Inquiry

Canadian Press

Vancouver, Jan. 17.—In view of the charges laid against Solloway, Mills and Company by the Attorney-General's Department in Alberta, the Vancouver Stock Exchange has had under consideration with the Attorney-General's Department in Alberta, and has been made in the interests of the investing public, close contact is still being maintained with the authorities.

"The whole status of Messrs. Solloway and Mills Limited in the Vancouver Stock Exchange while the charges against them are pending has been under serious consideration by the committee of the Stock Exchange for some days. The committee has no statement to make except to say its decision not to disturb the status at present time has been arrived at after close consultation with the Attorney-General's Department in Alberta, and has been made in the interests of the investing public, close contact is still being maintained with the authorities."

**Ice on Rails**

**Causes Train**

**Workers' Deaths**

Wallace, Idaho, Jan. 17.—Ice-covered rails to-day were believed to have caused the wreck of an ore-laden Northern Pacific freight train at Look-out, east of here, yesterday, which killed two men and injured a third. Louis E. Erickson, forty-five, a brakeman, who was pinned under the engine until to-day, was killed. Charles E. Campbell, fifty, the engineer, was crushed and burned so badly he died on route to a hospital, and C. A. Swant, thirty-eight, the fireman, was only slightly injured. All three men resided at Missoula, Mont.

The wreck occurred on a horseshoe curve on a four per cent grade where the train was going downhill ahead of twenty-two freight cars loaded with ore for an East Helena, Mont., smelter. The engine dived into a snowbank, pinning the men under it. Campbell and Swant extricated themselves, but Erickson was trapped.

**Unemployed Wait**

**On Mayor Anson's**

Following a meeting at the Trades and Labor Hall last night, a delegation of five men, representing an organization of the unemployed, waited on Mayor Anson at the City Hall this morning with the request that additional work be created here by the city to take care of seasonal unemployment at this time of the year. In conference with the chairman of the works and parks committee, Mayor Anson assured the delegation the city would do what it could under the circumstances.

## Royal Bank of Canada Reports Most Successful Year in History

Sir Herbert Holt, President, Points Out That the Strength of the Business Structure is Such That There is No Reason to Look Forward to More Than a Moderate Recession in Business During 1930.

C. E. Neill, Vice-president and Managing Director, Urges Canada to Take Full Advantage of Enormous Tourist Traffic From the United States—Would Make Purchasing of Canadian Products an Essential Part of a Trip to Canada.

M. W. Wilson, General Manager, in Reviewing Annual Report, States Both Total Assets and Profits Constitute New Record For Canadian Banking—Bank Not Carrying So-called Undigested Securities.

The annual meeting of shareholders of the Royal Bank of Canada not only marked the close of the most successful year on record, but was rendered especially interesting by constructive addresses delivered by Sir Herbert Holt, president; C. E. Neill, vice-president and managing director; and Morris W. Wilson, general manager.

Sir Herbert, in addressing the shareholders, pointed out that in spite of the losses incurred by thousands of investors throughout Canada and the United States, the strength of the business structure is such that there is no reason to look forward to more than a moderate recession in business during 1930.

"Fortunately," he added, "speculative excesses were confined to securities; commodity prices have remained stable; inventories are low; employment and wages are being maintained at a relatively high level; the improvement in industrial efficiency has continued; and the financial position of industry is excellent, both because of large liquid reserves and satisfactory profits during last year. Such conditions warrant optimism."

### SITUATION WARRANTS OPTIMISM

Dealing with conditions in Canada, Sir Herbert stressed the fact that neither the prospects in foreign trade nor the situation in Canadian industry, trade and agriculture, warranted pessimism concerning the outlook for the coming year. It is true that the small crop, the stagnation in the lumber industry, the unsatisfactory price for newsprint and the decline in security prices have somewhat dampened enthusiasm, but I look forward to 1930 as being a year of normal activity in business unless unforeseen developments in the world wheat situation react in a manner to cause further substantial injury to Canadian interests.

"Many farmers in the west incurred substantial losses as a result of the destruction wrought by the drought. It is discouraging to see the results of a year's work destroyed. Nevertheless, the large crops and high prices of previous years have improved the financial position of the farmers so that most of them were more fortunate, situated than farmers in other parts of the world. Neither the low price for the crop of 1929 nor the small yield of 1929 has caused general distress, in the face of the two unfavorable years the volume of western business has been maintained at a surprisingly satisfactory level."

**ADVANTAGES OF INDUSTRIAL ADVISORY COUNCIL**

After dwelling on the success obtained by President Hoover in securing the active co-operation of industrial leadership throughout the country, Sir Herbert said that it would be to the advantage of Canada to establish a non-partisan Advisory Council, composed of men of outstanding ability, representative of industry, agriculture and labor. This council would bring about a close rapprochement between government, industry, agriculture and labor that would assist the formulation and execution of effective measures for the maintenance of that equilibrium which would insure stable prosperity.

In summarizing general conditions in the country, Sir Herbert said:

"In most lines, business has been conducted with prudence and conservatism. The conditions which precede depressions are not present. Although there may be some recession from the recent high levels of maximum activity in industry and trade, there should be no doubt that the prospects favor a continuance of that balanced expansion which has characterized our recent prosperity."

### VICE-PRESIDENT'S ADDRESS

C. E. Neill, vice-president and managing director, submitted to the meeting a very interesting proposal by which Canada might benefit to a far greater extent from the tremendous tourist traffic that is coming annually into the country from the United States. "As a definite movement in the direction of trade expansion," said Mr. Neill, "Canada should become known as a country where the tourist from the United States might purchase distinctive articles of merchandise at lower prices than are feasible in a country of prohibitive tariffs. The geographical position of the United States has given Canada an opportunity to develop the art of skilled merchandising in a manner that does not exist on a similar scale in other countries."

"With due recognition of the importance of the tourist trade in Europe, it must be conceded that Canada holds first place among the playgrounds of the world. The scenic beauty of the Canadian Rockies, the lakes and rivers of Central Canada, the historic landmarks and traditions of Quebec and the summer resorts of the Maritime Provinces, are attracting approximately 15,000,000 visitors a year. The Dominion Bureau of Statistics has estimated that these visitors spent \$250,000,000 in the country in 1928 and in 1929 the total must have been close to \$300,000,000. It is estimated that only about \$60,000,000 of this sum, or less than \$4 per capita, was spent for goods which were taken from the country."

**UNPARALLELED OPPORTUNITY FOR TRADE**

"This great annual migration presents an unparalleled opportunity for increasing our trade. As yet there has been no concerted effort to build the tradition that there are purchases which can be made in Canada more advantageously than in the United States. It is estimated that in France the amount of sales to each visitor averages about \$750. If we could make purchasing in Canada sufficiently attractive so that the average value of the merchandise taken out of the country by each visitor amounted to only one-tenth of this sum, it would make a difference of more than \$1,000,000,000 a year in our trade."

"It will require large-scale advertising to make visitors from the United States realize that numerous items which are now or may be in the near future placed on the free list in Canada, can be bought in this country at prices substantially below those which they have to pay in their own country. Where manufacturers and merchants can agree among themselves to such a policy, they might ask the government to place certain specific articles of foreign origin on the free list with a view to using such items as leaders in the promotion of the sale of allied classes of goods of Canadian manufacture."

**GENERAL MANAGER'S ADDRESS**

Morris W. Wilson, general manager, reviewed the sixtieth annual report and balance sheet for the year ending November 30. The figures, both of assets and profits, constitute a new record for Canadian banking. Total assets of \$1,001,442,741 are shown, being an increase of \$92,046,856 for the year. Deposits have gained \$84,620,923 and now stand at \$772,067,708.

"Call loans in Canada are substantially the same as a year ago, while those abroad have increased by \$22,539,135 to \$66,175,537. The high rates that have been obtained for the call loans have been a source of considerable interest to the public. We have studiously refrained from restricting commercial credit in Canada to take advantage of high rates that prevailed in New York."

"The growth of our business in all departments has been most gratifying, and I think the bank has maintained its reputation of taking care of the legitimate requirements of the customers during a difficult period."

## FEDERAL PLAN FOSTERS GREAT TOURIST TRADE

Dominion Publications Received Here Show Extent of Dominion Campaign

Vancouver Island Receives Valuable Publicity in Attractive Advertising

Whether the sportsman wants to roam the virgin forest in search of the ferocious grizzly bear, the elusive mountain goat or the wily panther, whether he wants to try his marksmanship on the trout but evade rabbit, whether he wants to scale lofty peaks, or whether he wants to luxuriate in a line from his well-equipped yacht and land almost any variety of fish that swims in the sea, no other section of the world can offer the same favorable conditions that obtain in Canada today.

This information, culled from a series of books issued by the Natural Resources Intelligence Service of the Department of the Interior, demonstrates that the Dominion Government is well embarked on a policy of capitalizing its appeal to tourists which older countries of Europe have made one of their main sources of revenue for years.

**DIVERSIFIED ATTRACTIONS**

When the list of attractions is completed Canada reveals itself as a country surprisingly diversified in its appeal to those who had not given serious thought to the subject. Camping, wintering in Canada, motorizing, fishing, canoeing and mountain climbing are all dealt with in a variety of special pamphlets which are published by the Intelligence Service in addition to the main book "Vacations in Canada."

George I. Warren, Victoria and Island Publicity Commissioner, who discussed the tourist business in general with F. C. Lynch, director of the Intelligence Service, whom he met at the recent convention of Canadian Publicity Bureaus in Montreal, draws attention to the fact that British Columbia has a large and valuable publicity in the many publications issued by the Federal Government, copies of which have been received by the Victoria and Island Publicity Bureau.

The maps and pamphlets which the Victoria commissioner has received from the Federal Government, through the Department of the Interior, is keenly alive to the value of the tourist business to Canada, the value of which last year was set at over \$300,000,000. Among many maps published to aid tourists and to induce them to lengthen their stay in Canada is an automobile road map with detailed information. Similar maps of each province have also been published and the books issued deal with the attractions of each province individually.

**WINTER AND SUMMER APPEAL**

Winter and summer attractions are outlined in the Federal Government's all-year round tourist season. British Columbia comes under both heads. The annual ski tournament at Revelstoke, which every day in 1929, 1928 and 1926, a test that is possibly unique on the North American continent.

In the course of an article on British Columbia it is stated that no part of America can offer such splendid and varied scenic attractions as this province. It mentions that its mountain region is larger than a score of Swiss Alps. In character with glaciers, mountain lakes and waterfalls of marvelous beauty. It is referred to as America's greatest big game country, both in quantity of game and variety of species.

### OK BAY RESIDENTS HEAR BOTH SIDES IN BUS LINE ARGUMENT

(Continued from page 2)

was completed in 1913. Our population then was about 2,800; it is now over 8,000. Since 1913 your company has not extended its tracks and has done very little, if anything, to improve the transportation facilities in and to the municipality, in spite of repeated representations on behalf of Oak Bay residents. There may have been financial difficulties but the way in which it was felt that these could have been overcome if your company had exercised a reasonable amount of initiative.

In 1920, under the guise of a private act for the city of Victoria, legislation was obtained favoring your company, but prejudicial to the transportation interests of Oak Bay. This act compelled any rival concern to use a terminal at least one and a quarter miles from the city limits, and effectively prevented the operation of a direct bus service between the southern part of the municipality and Victoria. Oak Bay was not consulted in connection with this legislation, and the municipality was not a consenting party thereto.

In or about 1921, a petition was presented to your company signed by more than 200 residents in the Shoal Bay district asking for a extension of your system. In an interview with some of the petitioners, Mr. Goward stated that it was unlikely the trackage would be extended to the Shoal Bay district, and that the company was seriously considering the use of trackless trolley cars.

In 1922, your company was approached by Councillor Hayward, of the Oak Bay Council, regarding an extension of your system to Central Avenue or Shoal Bay district. Mr. Goward stated to Councillor Hayward that the company was unlikely to extend its car line but was considering other means of transportation and would advise the council later. No further advice was sent, and no other means of transportation was provided by your company.

"On December 31, 1928, your company was advised that the Oak Bay Council had received a large signed petition from residents in the area south of Oak Bay, Avenue Avenue, for the installation of a bus service. The letter continued in part: 'The council therefore would be glad to know

whether your company is now prepared to install a bus service in the southern part of Oak Bay to supplement and feed your car services at Foul Bay and Oak Bay.' No immediate attention was given to this letter, though similar replies were sent on January 2 and March 22, 1929.

In March, 1929, preliminary proposals were received from three concerns to start a bus service. These included the Blue Line and Mr. Matson's company (the Vancouver Island Coach Lines Limited). The latter company had already made some informal approaches to the council in 1928.

On April 9, Mr. Goward was invited to meet the Oak Bay Council. On April 10 Mr. Goward met the municipal council at the Municipal Hall, and on April 11 met the council. At that time he was aware that other parties were considering the installation of a bus service to Oak Bay. The council assured him that the Oak Bay Council wished to co-operate with the B.C. Electric Railway Company in the matter of buses. Mr. Goward stated, however, that the B.C. Electric Railway Company was at present of going into the bus business. Reference was made to the possibility of a bus service by Mr. Matson's company, and Mr. Goward stated he would see them about the submission of a proposal to the council. He intimated that your company was prepared to co-operate with Mr. Matson's company if the one and a quarter mile proviso was observed.

On April 17, Mr. Matson's company submitted a definite proposal but withdrew it on May 9, on the alleged ground that the service would not pay by reason of the one and a quarter mile condition.

Your company and the Matson company having refused to operate a bus service, arrangements were then made with the Blue Line (the Vancouver Island Lightering and Transportation Company Limited). Their service was started in September, and the council has assured the council of their intention to continue operation.

In October your company brought pressure to bear on the City Council to force the Blue Line to change its route in the city. At a meeting on October 30 between representatives of the Blue Line, your company and the council, Mr. Goward declared that his company could not prevent a bus line running to Oak Bay, and continued: "All we want is to get the buses off Port Angeles. The Blue Line consented to the change in route, but the council was expressed as to the right of your company to obtain such a change."

On December 16 your company gave notice of an intention to apply to the court for the quashing of a by-law passed by the council dealing with motor vehicles plying for hire. On December 17 your company submitted a proposal to establish a bus service, and makes no mention therein of the existing bus service or the proposed litigation instigated by your company.

In conclusion the council again expresses its regret that your company did not see fit to make its offer at a time it could have been accepted without difficulty.

### NEW POLICE COMMISSIONER GIVES VIEWS

More Civility on Part of Police Is Urged By Andrew McGavin

Does Not Think Raids in Chinatown of Great Value; Full Publicity on Activities

Elimination of raids on Chinatown gambling joints, full publicity to the doings of the police commission and different conduct by some members of the police force were urged by Andrew McGavin, newly-elected police commissioner, in his maiden speech before the board yesterday afternoon.

In part, Mr. McGavin said: "As you know, the outstanding promises I made to the public of this city, during my election campaign were impartial administration and equal justice for all. The first part of the fulfillment of those promises, I think is advisable, and I hope you will see eye to eye with me, that all our meetings are open to the public and the press, the press particularly, is being one of the most vital factors in the education of the public, to carry out the laws which we may enact."

**BREAK IN DOORS**

"In connection with my policy of equal justice there has come under my notice many inequalities carried out by the police department. I will just now instance the raids on Chinatown and the treatment meted out to them. Treatment that is a disgrace to any civilized community, treatment that would not be tolerated for one moment of time by our white population. We break in doors with axes, tear down partitions, etc., and to what purpose? The securing of evidence which consists of a few poker chips, a few nickels and dimes and occasionally, but very rarely, a few dollars."

"With regard to gambling, I cannot see very much difference in what goes on in Chinatown and what goes on in the neighborhood of Broad Street, nothing more than one pays a license and the other does not. Now I do not want you to get me wrong, I am not upholding gambling or saying it is right or wrong to gamble, but what I do most strenuously object to is the method used by the police department, setting no doubt on the part of the Chief of Police, and sometimes by the Chief of Police himself, when making a raid in Chinatown."

"For the information of the Chief of Police I would like to point out that the duty of the members of the police force is not to secure convictions, but to prevent crime, and to prevent crime, but rather to prevent a crime being committed, and it would seem to me from my observations that many of them are sadly lacking in the knowledge as to what are the primary duties of members of the force. To illustrate what I mean, it can hardly be said, that a policeman taking a license behind a hoarding board, or in a station, as I have seen them do, ready to pounce out on a man who has passed without stopping, any a stop sign, is right. The presence of a policeman standing on the corner, or sitting on his motorcycle, would have a greater moral effect, I am sure you will agree with me, than the imposition of a fine of five dollars on conviction would have."

**CIVILITY OF POLICE**

"I should just like to say a few words regarding civility. There are numerous

### Suspect That 'THROAT!'

NEGLECT of sore throat often leads to laryngitis, tonsillitis, and bronchial catarrh. At the first sign of pain, irritation or difficulty in swallowing dissolve a Peps tablet in the mouth. Peps give off a soothing and agreeably antiseptic medicine which directly benefits the delicate membranes of the throat and bronchials. Peps quickly relieve throat soreness and irritation. They help to ease the many who suffer from sore throat often give rise to. Get a 25c. box of Peps today.

occasions where one finds himself in a position of having committed an offence against the law. For instance, our city was built and just grew in a more or less haphazard way and, until very recently, we all found it inadequate to cope with our needs.

"It is unfortunate that at the time our city was built and laid out, that we did not have the foresight of Mother Shipton, for had we, we would have provided adequate space for the parking of motor cars. Now due to our lack of foresight, how many of our ladies and some of our men have found it necessary to stop their car along-side of an already parked car, while they wait for a moment to step into a store, only to find on their return the car in charge of a gentleman in blue? Now what takes place? Does our officer politely help the offending one out of a very embarrassing position? Or does he immediately by his remarks make her the centre of a curious, though bewilderment most of the gentlemen. I have heard many of our citizens spoken to in such a manner that would be resented by a cur dog, on the corner of Ford and Broad, and no other offence than stopping for a moment to read the bulletin at The Times."

"Do not think that I feel that our people should be asked to stop and obstruct the traffic, but I think that a little more civility could be shown to our people when they are asked to move their cars. There are just some of my own personal observations, extending over a long period of time, and I promised myself that if I should ever have them remedied. It is in matters such as these and the remedy, that I know that I shall have your fullest co-operation."

**MAYOR REPLIES**

In reply to Mr. McGavin, Mayor Ansonb said that meetings of the police board were always open to the public and the press. He said that he was not concerned, it was impossible for the police to get into these places at all without using force.

"We all know the Chinese have an inherent desire to gamble. Why stop them as long as no white men are down there? The Chinese are asked how can you tell if white men are there or not without visiting these places? They are always barred and police entrance is resisted," said the Mayor.

### LAST YEAR WAS RECORD FOR WORKERS

Figures Received By Commerce Chamber Show Greater Volume in 1929

Employment in Canada during 1929 was on the whole a decidedly greater volume than in any other year on record, according to a report from the Dominion Bureau of Statistics received yesterday by the Victoria Chamber of Commerce.

Its fluctuations during the year differed to some extent from those indicated in preceding years, and, towards autumn and winter there was a certain amount of unemployment, particularly in the West as a result of the small harvest and the depression, while the stock market depression also had a retarding influence upon the industry.

**GREATER ACTIVITY**

Firms in all provinces generally reported greater activity in 1929 than in 1928. The index based upon the 1928 average as 100, was higher in the prairie provinces and Ontario than elsewhere, these two areas indicating more pronounced improvement over the preceding year than was the case in the remaining provinces.

The firms reporting in British Columbia employed an average working force of 88,081 employees, while in the preceding year the mean was 80,692. The index averaged 111.5, the highest on record, as compared with 106.4 in 1928. At the end of the year the employment was eight points higher than at the beginning. Practically all groups of the manufacturing division showed heightened activity, the advance in pulp and paper, textiles and iron and steel plants being most noteworthy. Logging, mining, transportation, communication, services and trade were much busier during the greater part of 1929 than in 1928, while slight gains were shown in construction. The improvement in logging is important, as this and the lumbering group have been quiet in recent years.

Every four years enough newspaper is made for a strip as wide as a newspaper and long enough to reach to the sun and back.

Sir Robert Hatfield of England estimated that the world loses more than \$2,500,000 yearly through the corrosion of steel.

## For January Sale On the Bargain Highway

Clearing the balance of our Felt Hats. 250 in the lot. Values to \$6.75, for 98¢, \$1.98, \$2.98 and .... \$3.98

### Search For Missing Plane Pilot Fails

Salt Lake City, Jan. 17.—Four fliers combed the Groom mining district yesterday afternoon in their search for Maurice Graham, Western Air Express pilot, missing since last Saturday morning, but their efforts failed.

The four fliers took off from Las Vegas, Nevada on a tip a plane had been heard in the Groom district early Saturday morning. Visibility was poor,

but the searchers reported sighting nothing which indicated Graham had been in the vicinity. The Groom district is sixty miles southwest of Salt Lake City.

C. C. Cole, superintendent in charge of operations for the Western Air Express, announced at Las Vegas that the search would be continued until every nook and corner of the snowbound wastes in southern Utah and Nevada had been covered.

Three special concerts at the Empress Hotel this season. January 23, March 29, April 17.

## Dorothy Dix's Letter Box

**Straight Talk to the Wife Who Would Wilfully Deprive Her Husband of Happiness—What Are A Husband's Obligations to a Faithless Wife?**

DEAR MISS DIX—I have been married ten years. Have one child, a boy eight years old. My husband has always made good money and I have spent it on good clothes. I have never had a care or a worry. Have always had my own life, done what I pleased, leaving him weeks at a time. I have never prepared a meal for my husband, or done anything to make him happy or comfortable. I have never really loved him, or done anything to make him love me. Knowing how he loves our child I believed he would go on always taking care of me just the same, and that was all I wanted. About two years ago he told me about a girl he had loved before our marriage. They had a misadventure and that was why he rushed madly into marriage with me, and though he has gone on all these years being good to me, he still loves her dearer than life, as she does him. She is a fine woman in every way and there is nothing dishonorable in their affection for each other.

Now my husband begs me to free him so he can marry this woman. He is breaking fast under the strain of his unhappiness. He promises to support me and to educate and care for our son. I don't care for my husband, but I can't go back to my old life, and I can't stand to think of what my friends will say. I can't work and I can't do without luxuries so I have made up my mind to hold my husband whether he wants me or not. I didn't force him to marry me, so why should I free him now?

ANSWER—No reason at all, unless you have a sense of honor and decency and some human compassion in your soul. If you love any of these, I don't see how you can hesitate, under the circumstances, about giving your husband his freedom, and the right to marry the woman he loves.

I can understand how a woman who loves her husband will cling to him with a death grasp, even though she knows that he has ceased to care for her, and has found some other woman who is his real mate. He is all that counts in the world to her and it takes a courage and a self-abnegation that calls for real heroism to put his happiness above her own and give him up. And she keeps hoping against hope, and against reason, that somehow, some way, she will get him back, that some miracle will light again the fires of love for her in his heart.

But I cannot understand how the woman who regards her husband merely in the light of a cash register, can be mean and little enough to stand in the way of his happiness and refuse to give him up when he is willing to pay out good hard money for his ransom from her. In such a case it is a matter of life and death and his soul's salvation, and if she gets his worth in her in dollars and cents, it is nothing but a fiendish jealousy and a delight in torture that makes her refuse him his freedom and chance at happiness.

Such is your case, Kate. You frankly admit that you have no affection for your husband. He is just a meal ticket and clothes and car and trip. And comfort to you, and such being the case it is nothing but the dog-in-the-manger spirit that makes you keep him tied to you. Gratitude and appreciation for all that he has done for you should prompt you to return him a little kindness.

The obligations of matrimony are reciprocal. You have defaulted on all of yours. You have never even tried to be a good wife. You have not only not given your husband any affection or tenderness or consideration, you have given him no service. You have never even tried to make him physically comfortable. You have gone about amusing yourself and indulging yourself in every luxury you craved without giving one thought to his pleasure, or trying in any way to help him.

What do you think that a man owes to that kind of wife? Nothing. Absolutely nothing. When such a husband pays such a wife's bills he is paying a dear price for his mistake in marrying her, and the very least she can do when he tires of it, is to be a good enough sport not to stick him for too high a price when he buys her off and pays for his folly.

So have a heart, Kate, and let your husband go. You won't miss him so long as the shops are full of pretty clothes, and you can buy them.

DOROTHY DIX.

DEAR DOROTHY DIX—I am thirty-two years old. I have been married three years. Some time ago I discovered that my wife had had an affair with another man. She admitted it and said she loved him. Since then she has changed and has regretted her infidelity and begs me not to divorce her. However, I find that her actions have killed my love for her, and that I neither trust her, nor respect her, nor have any desire to continue with her. This affair has left me broken in health, ambitious and discouraged. I want to ask (1) what are a man's obligations to an unfaithful wife? And (2) to what extent should I allow the opinions of her family and friends to influence my future actions?

ANSWER—I do not think that a man has any obligation to an unfaithful wife. When she betrays him she forfeits all claims upon his consideration, and whether he divorces her, or forgives her is just a matter of justice and chivalry with him.

Sometimes a man loves a woman well enough to overlook every fault and weakness in her and to be happy with her under any conditions than he would be without her. Sometimes the knowledge that his wife has been unfaithful to him and that he cannot trust her, kills a man with such disgust for her that she becomes actually repulsive to him and he could sooner live with a snake than with her.

It is all a matter of temperament, and sense of values, and the point of view one takes about the sex relationship generally, and hence becomes something that every man must settle for himself. But certainly he is in no way obligated to take back the erring wife.

Nor do I think that a man should permit the wife's family and friends to overpersuade him in the matter. Naturally, they will try to save their faces at his expense if they can, for if he condones her offense it gives her a nice coat of whiteness. But it is he who has to consider their future lives together and whether the memory of her faithlessness will always be an evil specter that stands between them and happiness.

Of course, it is a shock and a hurt to your heart to find that you cannot trust your wife, but do not let it wreck your life by making you purposeless and ambitious. Rather let it stimulate you to go to your life work with new vigor and absorb yourself in it, for that is the only way in which you will find surcease from your agony.

Throw yourself, body and soul, into your career and in that you will forget your disappointment. Domestic trouble is the stepping stone on which many a man has climbed to fame and fortune.

DOROTHY DIX.

DEAR MISS DIX—What do you think of a man who is going to leave his wife because she bought a washing machine?

MARY A.

ANSWER—I would think he was a good riddance. I'll bet he has all sort of labor-saving devices to help him with his own work, and that he has a self-starter on his car, and that he doesn't even sharpen his lead pencils with a pocket knife.

Take it from me that if man had to do the housework, there would not only be vacuum cleaners and electric washing machines, but there wouldn't be a house without dish-washing machines, and motor-driven sewing machines, and patent bread-mixers, and egg-beaters, and self-propelling perambulators, and every sort of new gadget that would save back and steps. Every woman is strictly within her rights when she gets any sort of household machinery that will make her work easier. So go to it, sister.
